

Madam, Don't Stoop

Use a "Garland" Gas Range

Here is a range that not only solves that back-breaking problem but your cooking difficulties as well—a range that was originated as a relief from the old-time drudgery of cooking. You owe it to yourself or to your cook to have one of these modern gas ranges in your kitchen.

You cook, bake and broil while standing in an upright, comfortable position. You can operate both oven and broiler with but one set of burners. An entire meal can be cooked by using these burners alone. Maximum economy is the result.

This ideal equipment in your kitchen will not only insure improved cooking, but will afford many added conveniences as well. All interior parts are aluminized and removable, making cleaning easy. The improved "Garland" Burner is all burner—no hole in the middle. Most economical burner made. These and other features will appeal to you.

Ventilation in the oven not only carries off the odors but guarantees an even temperature in every part of the oven—insures that perfect uniform brown.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute
Dr. Edwards' Olive Tablets—the substitute for calomel—are mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. These pleasant little tablets do the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.
Most headaches, "dullness," and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "foggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 10c and 25c per box. The Olive Tablets Company, Columbus, O. At all druggists.—Advertisement.

Why Your Stomach Hurts Some Common-Sense Advice

BY A DOCTOR
Pain in the stomach, variously called indigestion, dyspepsia, flatulence, heartburn, stomach ache, etc., is usually attributed to some unnatural, abnormal or diseased condition of the stomach. Nothing, however, could be further from the truth. Nineteen times out of twenty the stomach is absolutely healthy and normal, the pain and discomfort being entirely due to the acidity and fermentation of food which irritates and distends the stomach, although if this condition is allowed to run on, in time the constant irritation of the acid is likely to eat into the stomach walls and produce ulcers of the stomach. Medicine is useless in such a case. The acid and fermenting food must be removed by a stomach pump or an emetic, or you must neutralize the acid and stop the fermentation by taking a teaspoonful of bisulphate of magnesia in little water; this latter is far the simpler and the safer method. Bisulphate of magnesia almost immediately neutralizes the dangerous acid and by correcting the food contents enables a tired, weak stomach to digest almost any food without difficulty. Physicians advise that bisulphate of magnesia should be kept in every home and a little taken after every meal whenever the slightest tendency to food fermentation is shown.—Advertisement.
