CHAMBER OF COMMERCE TRIP is a pleasure to note the su that attended the Chamber of Comnerce trade extension trip to York, Lancaster, Lebanon and interme-

diate towns. This little journey of some seventy of Harrisburg's live-wire business and professional men was much broader in its scope than its title might indicate.

Not a man of the party that was not zen of any of the other towns who Looking at the thing from a purely

business standpoint, the money for the trip was well spent. The Chamber of Commerce could not have purchased that the initiative and the referendum at any price the advertising given to may be as readily manipu'ated and Harrisburg in the newspapers of the abused? cities visited. And the towns that did the entertaining profited to an almost equal degree.

A city needs advertising quite a much as a private business. A few more such trips as that of yesterday do wonders in fostering the Haven, York, Wrightsville, Columbia, Lancaster, Manheim, Lebanon and Hershey during the trip that came to such a pleasant conclusion last evening, and in spreading broadcast the merits of the towns participating.

President Tripp and the representatives of the Chamber of Commerce made it clear in all the speech-making of the tour that the only purpose and wish of the Harrisburg business men was the enlargement of the good feeling which has existed for years bethe several communities covered in this first swing around the eliminate circle. So successful was the tour in such as establishing better relations that there talk of a further enlargement of the Harrisburg influence in other directions. It was exceedingly gratifying to all the Harrisburg visitors to learn from the mouths of the speakers from other towns and cities how much dations regarding their findings and of inspiration they have received from this city in the way of municipal betterment and progress. It would have

This being true, it may be readily enough that every fly is the harbinger of disease and possible death. Flies will crowd each other for food and for breeding places. The garbage cans, open gutters, decaying fruits and vegetables, exposed market edibles, the mosses, ferns and decaying leaves upon the eaves of your roofs, all of these, as well as green groceries, butcher shops, thatched shingles, and all exposed liquids and foods will be quickly seized upon by the plague of flies that will have already been born before April was warned.

So let us "swat" as often and as vigorously as we may, but let us also look for Mrs. Fly's nursery and destroy that.

HOW FREAK LAWS WORK HE futility of much of the freak legislation of which the Democrats in late years, and the Pro-

party since its birth, been ardent advocates is well y the manner in which the 'recall" is being used in the State of Washington. The Pittsburgh Gazette-Times notes that a Washington court has recently held that a secret contract, whereby the defendant in the

case before it employed the plaintiff o carry out a movement for the recall of certain officials, was void as contrary to public policy. The court declares that such a private compact, 'looking to the advancement of per sonal ends by the financing of a recall is just as inimical to a sound public olicy as would be the same course of conduct when applied to an election itself, or as would be a contract to influence legislation by a secretly paid lobby.

All very well! But is this decisio going to stop the secret contracting? We think not. Conspiracy is one of the most difficult offenses to prove and

EVENING CHAT

LLVENING GRA Few people are aware of the fact that as far as land area goes the city of Harrisburg is not nearly as large as some of the smaller cities, in point of population, and even some of the boroughs. The city's total acreage within its incorporated limits amounts to 5,504,41, of which 3,448.50 is land and the fest Susquehanna river. The city's line goes to the west shore of the Susquehanna and comes near to touch-ing three counties. Allentown is a larger city in area than Harrisburg by over 300 acres and the borough of Arisburg in area. Chambersburg has 2,016 acres and DuBois and Dickson City, in which many Harrisburgers have never been, are more than half the area of the State Capital, while Dumore borough, the halfsister of Scranton, has an acreage of 5,269, or more than Harrisburg. was the funeral oration he delivered over the victims of the taking of Vera Cruz. That address was marked by a felicity of phrase and loftiness of sentiment which fully justified the high repute of the President as a schodar and moral-list; there are in sentences worthy of lasting remembrance for their haunt-ing beauty and high-minded patriotism. But these serve to emphasize the dis-cordant tone of the concluding part. If ever there was an occasion to lift a man out of himself, to ill him with the spirit of utter devotion, to the ex-clusion of all personal thoughts, surely it was being called upon to speak over those seventeen flag-draped biers, where lay the bodies of brave men who had given up their lives for the honor of the nation. There was a personal mat-ter, a personal grievance, which came between him and the contemplation of their sublime service. It seemed to him proper to utter, in the presence of the nation's dead, this complaining pro-test:

the nation's dead, this complaining pro-test: I never went into battle, I never was under fire, but I fancy that there are some things just as hard to do your duty when men are sneering at you as when they are shooting at you.
