

HERE ARE TYPES OF HARRISBURG'S NEW MOTOR FIRE APPARATUS

Bids for Harrisburg's first motor fire apparatus were opened early this afternoon by City Commissioner M. Harvey Taylor, superintendent of parks and public property. Proposals were received for the motor tractors—the two-wheeled motor truck to which is attached the steamer or hose apparatus, thus doing away with the need of horses—and for combination chemical and hose wagons. Commissioner Taylor has \$10,000 of the \$25,000 voted for new fire apparatus at his disposal to make the purchases. Whether or not the contract will be awarded in time for Council's approval to-morrow is a question. Bids for 3,000 feet of fire hose were also opened this afternoon. Following are the bids for tractors and combination chemical:

Rev. John Mills Gilbert Twenty Years a Rector

Special to The Telegraph

West Chester, Pa., May 25.—Just twenty years ago, the Rev. John Mills Gilbert, rector of the Church of the Holy Trinity, was ordained to the priesthood by Bishop William Crosswell Doane, in the Cathedral of All Saints, Albany, N. Y. During a happy and appropriate celebration Mr. Gilbert received many congratulations on the work he has accomplished thus far and the prospects of doing much more amid favorable conditions here.

The services began with the rite of holy communion at 8 o'clock with a goodly attendance and in the afternoon from 5 to 7 o'clock, the rector and his wife were "at home" informally, assisted by the Rev. Horace A. Walton, rector of the Church of the Good Samaritan, Paoli, who was a classmate of Mr. Gilbert at the theological seminary in New York; his sister, Miss Walton, and Miss Starr, a sister of Mrs. Gilbert.

This was the first social event at the rectory since the Rev. Mr. Gilbert came here from St. Paul's Church, Harrisburg, and a large number of people had the pleasure of meeting the new rector in his new home.

Mexicans to Hear of Plans of Americans

By Associated Press
Niagara Falls, Ont., May 25.—The South American mediators planned to lay before the Mexican delegates to-day the views expressed by the American government through its delegates last night in several important points in the peace negotiations here.

The mediators, it is understood, are chiefly concerned now over the part the land question should play in the settlement of the Mexican problem. The view of the Mexican delegates has been that the question is a purely internal one and foreign to the issues which provoked difficulties between the United States and Mexico. The American delegates, it is understood, have insisted that permanent peace in Mexico—the aim of all concerned—cannot be a reality unless economic questions are taken into consideration. The exchange of ideas on this phase of the negotiations, as well as other points, was expected to continue throughout the day. Immediately after learning from the Mexicans their attitude toward the latest views presented by the Americans, further conferences with the latter is expected. In this way the proceedings go forward each day, the mediators acting as channels of communications and explanation.

The presence here of Jose Requena and other intimate friends of General Felix Diaz attracted some attention. Though they were not believed to seek audiences with the mediators, Huerta delegates spread the belief that they were seeking information as to the persons who would be suggested for the new provisional government that is to succeed the Huerta regime.

Central High "Argus" Edited by New Staff

The May number of the Central High School "Argus" is out and now on sale. This issue is edited by the candidates for the new staff which will go into force in September. The paper is a result of hard work done by all the candidates and all indications point to a fine edited paper for next year. The reason for the candidates putting out the May number is to give the staff proper time to do justice to the commencement number which will be unusually fine this year and to teach the new members the "ins" and "outs" of publication.

This number contains four fine stories written by pupils of the school, "The Fortune Teller," "For Life," "The Madonna of Sacrifice" and "In the Ozark Mountains."

An excellent account of the athletic and social activities is given in an interesting manner and the "Observations" are extremely humorous and clever.

SOME KNOWN FACTS ABOUT RHEUMATISM

There are many things that are still unknown about rheumatism. The treatment of it is still far from satisfactory. Doctors realize this, but nobody is more fully aware of it than the sufferers themselves.

A tendency to rheumatism once established, the pain often returns with every change of weather, showing that the poison is still in the blood awaiting favorable conditions to become active and cause trouble.

One fact is known and acknowledged by all medical writers and that is the rapid thinning of the blood when the rheumatic poison invades it. Building up the blood is the best remedy for rheumatism, as the enriched blood is able to overcome or throw off the poisons of the disease.

For this reason axomatic sufferers should be interested in the success which Dr. Williams' Pink Pills have had in the treatment of this painful disease.

A book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. It contains directions regarding diet, baths and hygiene for rheumatic patients.

Dr. Williams' Pink Pills are sold by all druggists everywhere.—Advertisement.
