

M'FARLAND TELLS OF GOOD DONE AT PEACE CONFERENCE

Representatives From World Powers Gather to Further Cause of Universal Peace

HARRISBURG HAS DELEGATE

Watchfires From Coast to Coast Planned For Britain-American Celebration

J. Horace McFarland returned today from attendance upon the twentieth annual Lake Mohonk conference for international arbitration, to which with Mrs. McFarland, he went last week, representing not only the American Civic Association, but the Harrisburg Chamber of Commerce.

Although some sixty American and a half dozen Canadian cities were represented, Harrisburg was one of only four Pennsylvania cities sending delegates to this great gathering. Philadelphia, Pittsburgh and York were also represented.

When asked about the conference, Mr. McFarland said:

"The gathering was a very notable one in geographical scope, in personnel and in action. The minister to the United States from the new republic of China made an address. By all means the most scholarly and interesting address was that of the minister from Peru, who said some surprising things. The minister from Ecuador made an excellent speech.

"Men Who Talked on War

"John Bassett Moore, who until recently was counselor for the Department of State, presided. Secretary of State Bryan was to have spoken on Thursday evening, but was detained at the last moment and sent regrets. Two rear admirals of the United States navy were present and Admiral Chadwick made a picturesque and forceful speech, differing considerably from the general tendency of the other addresses.

"The dreadful waste of war, its enormous expense to each individual in the civilized world, and its prevention of advance toward many things we all want were forcefully brought out. It was brought out that with the six hundred million dollars annual cost to the Federal government of wars past and being provided for in the future, the United States could build roads, develop waterways, promote commerce, improve agriculture and make every man, woman and child in America healthier, happier and more prosperous.

"Against Commerce Increase

"The business men had a separate meeting, at which, it was taken looking toward a direct protest to the Federal government against increase of armament and promoting the suggestion that there be an intermission in increase of expense for war vessels if other nations could be brought to co-operate in this money and life-saving movement.

"A most eloquent and unusual address was made by a member of the Canadian government in pleading for attention to the celebration in 1915 of the one hundredth anniversary of peace between United States and Great Britain. Mr. King called attention to the fact that by the simple method of agreed-upon disarmament on the Great Lakes and along the Canadian border, 3,500 miles of frontier between

DOMESTIC SCIENCE IN RURAL SCHOOLS, SHAMBAUGH'S PLAN

New County School Head Considers Asking State College Aid

FAVORS GROUP MEETINGS

Thinks It Will Be Good For Teachers to Get Together in Small Bodies

Pennsylvania State College extension aid for the teaching of domestic science, including cooking and sewing in the rural and borough schools of Dauphin county, will be asked for by Professor Frank N. Shambaugh, the new county school superintendent, who succeeded H. V. B. Garver today.

Professor Shambaugh came down from Wisconsin with his father today and took charge of his offices in the Courthouse. While he smilingly declared he has a number of excellent plans up his sleeve for the development and improvement of the educational work in the county, he only talked of them tentatively.

The instruction of sewing and cooking has been tried out successfully in the Wisconsin schools where Mr. Shambaugh had been principal and it has long been his desire to see this branch taught generally wherever possible in the country schools.

State College Aid

The State College extension aid program could include this in its work very properly, Professor Shambaugh thinks, and he means to ask for lecturers and so on. The plan Mr. Shambaugh has in mind is much on the order of the work that had been demonstrated by the Wisconsin University.

During the summer Mr. Shambaugh will go either to Columbia or Chicago University to finish a course and it is

ANDERSEN SAYS HE IS NOT RESPONSIBLE FOR RIVER DISASTER

Captain of Storstad Issues Statement Regarding the Collision Early Friday Morning

INVESTIGATION IS PLANNED

Bodies of Victims Are Rapidly Being Identified in Morgue at Quebec

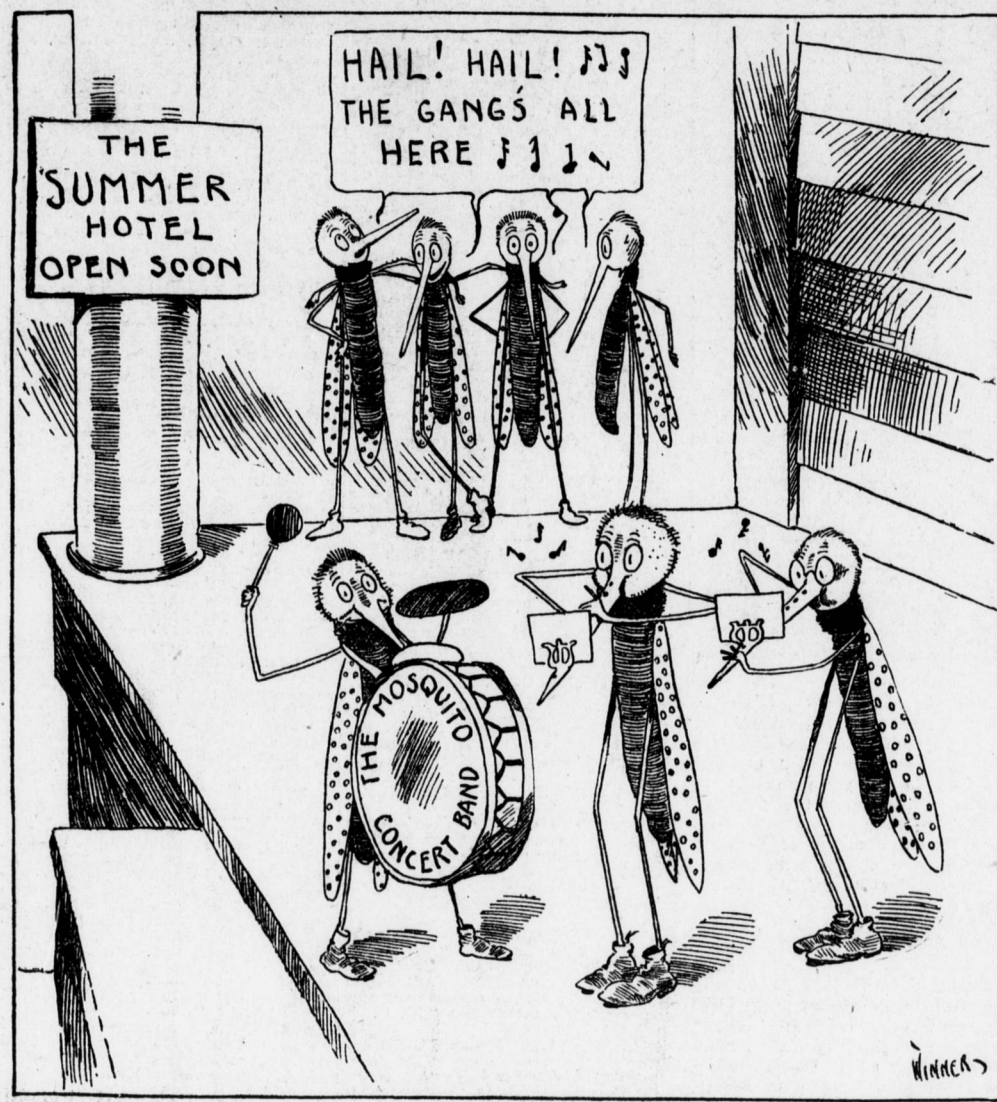

Quebec, June 1.—Identification of the dead recovered from the scene of the wreck of the Canadian Pacific steamer Empress of Ireland is proceeding more rapidly than was expected. Nearly 100 of the 158 bodies brought here yesterday by the tender Lady Grey have thus far been recognized by sorrowing friends and relatives. This is in addition to the 18 bodies identified and claimed at Rimouski.

Some of the identifications include persons of prominent who lost their lives in the collision between the Empress of Ireland and the collier Storstad early Friday. They are Sir Henry Seton-Kerr, the big game hunter; Dr. E. A. Barlow, a leading ecologist of Canada; and Mrs. W. Leonard Palmer, wife of a London newspaper man. Nearly a score of members of the Salvation Army have been identified among the dead.

The funeral ship Lady Grey, escorted by the British warship Essex, arrived in Quebec early Sunday morning and soon thereafter blue jackets from the Essex were carrying the coffins ashore. The bodies were placed on long tables, draped in black and white, in the funeral shed which had been prepared for their reception. The pier shed was heavily draped in black and over the window sheets were fastened to shut out the view of the curious and the morbid.

UNREST FELT LESS IN U. S. THAN OTHER COUNTRIES--WILSON

Says Prosperity Will Come With a Jump if Business Men Believe It Is Coming

WILL NOT ANSWER QUESTIONS

President Refers to Chairman Gary's Statement That Conditions Will Improve

Washington, D. C., June 1.—President Wilson today again expressed his conviction that any present unsatisfactory condition in business was not general, but was less felt in the United States than any other part of the world. Mr. Wilson reiterated his view at the first conference he has had with the Washington correspondents since the general situation became acute. Questions, however, on that subject and on the Niagara Falls mediation conference were barred.

In reply to inquiries concerning the business situation as discussed in his statement last week to representatives of the Illinois Manufacturers' Association and other similar organizations the President said it was his impression that any unsatisfactory condition centered very largely about the railway officers and that which reflected in the steel industry and in other industries closely allied which depend especially upon railroad development for prosperity. The President referred to a statement by Chairman Gary, of the United States Steel Corporation, that the general outlook in the steel business was good.

Better Times Ahead

The President believes prosperity would come with a jump if the manufacturers believed it was coming. He does not believe the tariff has anything to do with the depression. Secretary Redfield's statistics of exports over imports was cited by the President as proof.

Discussing the Clayton trust bill, the President said he did not understand the act was designed to grant to labor organizations any privileges they do not now enjoy. It is the purpose of the act, as he understands it, to define the rights of labor organizations more clearly and remove any doubt of their right which has been created by various court decisions. It is not the understanding of the President that the labor organizations are to be given the privileges denied to other organizations.

Columbus, Ohio, July 1.—Delegates from local unions of the Ohio United Mine Workers began arriving here this morning for the convention this afternoon preceding the joint conference with Ohio miners which is held to-morrow in an attempt to fix a wage scale and end the present strike.

PLAYGROUND SITES VISITED BY PARK MEN WITH EXPERT

Consider Purchase of Plots at Fourth and Woodbine and Near Present Sycamore Grounds

COMMISSION MEETS TONIGHT

Supervisor Staples Arrives in the City; to Select Staff Wednesday

Possible playground sites at Fourth and Woodbine streets and on the eastern side of Thirteenth street just across from the present Thirteenth and Sycamore street playground were among the places visited to-day by Warren H. Manning, the City Planning Commission, City Commissioner M. Harvey Taylor, superintendent of parks, and Assistant Superintendent Hoffer on a tour of the city's recreation places.

The sites in question have been considered as possible permanent playgrounds and if satisfactory terms can be agreed upon the plots will be purchased from the \$55,000 of the \$100,000 park and playground improvement loan. These plots, by the way, will be the first to be bought from the 1913 loan. One other site, it is understood, is being considered, but inasmuch as negotiations are still pending in that direction Commissioner Taylor declines to discuss the location.

Suffragettes Continue to Destroy Buildings

By Associated Press

Henley, England, June 1.—An arson squad of militant suffragettes to-day destroyed the historic parish church of St. Mary's Wargrave, three miles from here on the Thames. All that remains of the church, which was built in 1538, is a portion of the tower and the scorched stone walls. Two women strangers were seen in the neighborhood early this morning. Just inside the ruins the firemen found a hammer and a heap of suffrage literature with a placard, "Stop Persecuting Women." At Windsor a fire which the police say was started by suffragettes destroyed a mansion. The house was formerly the residence of the Duchess of Sutherland.

GUARDSMEN WILL NOT MANEUVER IN SOUTHERN STATES

Orders For First and Fourth Brigades to Participate Are Recalled Today

WASHINGTON GIVES IT UP

Organizations Will Probably Encamp at Mt. Gretna; Second Squadron Orders

Pennsylvania National Guardsmen will not participate with regulars in joint maneuvers in the vicinity of Washington from August 5 to 20. Today, word from the War Department, Adjutant General Thomas J. Stewart announced that the orders assigning the first and fourth brigades and first squadron of cavalry to the maneuvers had been rescinded. This means that these organizations will encamp in this State.

The probabilities are that the two brigades and the squadron and battery C would encamp at Mt. Gretna. The date of the encampment may be August 8 to 15, inclusive. The details, however, have not been worked out.

The second brigade will probably encamp at Haddam and the third at Selinsgrove July 18 to 25 inclusive. The Fourteenth Regiment, Battery B, the signal corps company and the field hospital corps with the second. The second squadron of cavalry will probably be divided between these two encampments.

The two engineer companies will, however, participate in field work in the vicinity of Washington in July. Orders announcing the details of the encampment will be issued soon.

Arrest Two Men on Charge of Holding Up Man on Bridge

An unsuccessful attempt was made Saturday night to hold up George Myers on the Harrisburg bridge, near the island. Mr. Myers, who resides on the Erford farm, near West Fairview, told the town keeper that he was stopped by three men while on his way home about 1 o'clock Sunday morning.

Patrolmen Larsen and Shillias later arrested Edgar Bostdorf and R. H. Shugart. Both men were said to be intoxicated. They denied meeting anyone on the bridge. Myers said he would look the men over this afternoon.

\$40,000,000 LOST IN 1913

New York, June 1.—A large surety company of this city in a report just made public places \$40,000,000 as a conservative estimate of the defaultations throughout the United States in 1913. Thefts of \$4,000,000 were publicly reported, while insurance policies paid because of burglaries and other evidences of loss bring the total up to the first figure.

New Health Rule May Send Up the Price of Soda Water

Pharmacists Considerably Peeved Because They Must Pay Fee Under Sanitary Code in Effect Today

Rumored increases in the price of soda water and an investigation of a dozen or so pharmacies and other places where the summer beverage is disposed of at a nickel a glass brought to light to-day the fact that while so far but one place has actually advanced the price of the beverage to 10 cents, the matter will be discussed at a meeting of the pharmacists on Wednesday night in the Chestnut street school building.

It is understood that the threatened increase is due to the fact that the retailers are more or less peeved at having to pay out five good dollars milk inspection fee under the new sanitary code of the Board of Health.

A. M. Rickert, Eighteenth and Walnut streets, is the pharmacist who to-day raised the price of the summer drink.

SUPPLIES ON KARLUK TAKEN FROM WRECK

Members of Expedition Are Believed to Have Passed Comfortable Winter in North

By Associated Press

Seattle, Wash., June 1.—Cable dispatches from St. Michael and Nome, Alaska, indicate that when Vilhjalmur Stefansson's exploring ship Karluk was crushed in the Arctic near Herald Island, northeast of Siberia, January 16 last, the men saved all their instruments, supplies, dogs and food and left only the crushed hulk and its coal cargo when they headed east over the ice to camp on Wrangell Island.

The experience of the Karluk proves that the drift of the ice sheet from

DEMOCRATS AT WASHINGTON WORRIED OVER ROOSEVELT

By Associated Press

Washington, D. C., June 1.—Colonel Roosevelt's statement, the President's blundering course with respect to the Grand Army and the Memorial day exercises, and the tolls repeal question all combined, are creating a situation in which the feeling in all parties has assumed an intense degree of bitterness.

The campaign will not terminate until the elections this Fall is already being opened in Congress, and this is likely to see the issues clearly defined. The Democrats, although in complete control of all branches of the government, are on the defensive, with public sentiment running strongly against them. They know this themselves, and are both worried and exasperated.

FRENCH CABINET DECIDES TO RESIGN

At Session Tomorrow Statement Explaining Action Will Be Drafted

By Associated Press

Paris, June 1.—The French Cabinet under the premiership of Gaston Doumergue has decided to resign. The resolution was taken at a cabinet meeting to-day.

The chief factor in bringing about the resignation of the government is understood to be the uncertainty of its ability to control a majority in the Chamber of Deputies, where some changes in the numerous groups were brought about by the recent general elections. There is also some divergence of view in regard to the three years military service.

BELIEVES CHILD IS MISSING

WINTERS GIRL OF INDIANA

By Associated Press

Findlay, Ohio, June 1.—Probate Judge Dorsey planned to-day to issue an affidavit charging Mrs. Emma Thrappe with failure to keep her foster daughter in school as a legal means of holding the woman, who is under surveillance here in connection with the belief that the 11-year-old girl who is with her may be the missing Catherine Winters of New Castle, Indiana. Mrs. Thrappe insists that the child is her own granddaughter and her adopted daughter.
