**Two Assaults in Park are Reported**

**Unfrequented Spots at Reservoir Invaded by Bad Characters; Authorities Active**

Two assaults in Reservoir Park, Saturday night, are the latest additions to a series of attacks in the resort that the police believe may be the work of a band of organized thugs. In nearly every case the attacks have occurred in remote places in the park. Amos Plumber, of 1407 Regent street, and another boy were walking with Rosie Gross, of Short and Walnut streets, when they were attacked by a thug, who seized the girl and carried her away. The boys ran and told Frank Rohrer, a watchman for the Central Supply and Construction Company. Rohrer started in the direction that the man had taken and on approaching a clump of bushes was shot twice by the thug, who then escaped.

Frank G. Warren, 1528 North Fifth street, was walking in the park with Miss Helen Miller, when a man approached and said he was going to place both under arrest for trespass. Warren gave up his pocket flash-lamp from the thug's pocket in an attempt to frighten him, who pulled out a revolver and demanded that Warren give up his lamp, which he did. Warren then closed with him and recovered his lamp, and was about to proceed on his way when he was struck in the face with his fist and then above the nose with a blackjack. Warren was taken to the hospital.

The park authorities caution frequenters not to go beyond the shrubbery belt that surrounds the park. They are doing their best to apprehend the offenders.

## DR. MUDGE PREACHES TO ACADEMY SENIORS

Tells Boys World is a Great Workshop Where Men Should Do Their Best

The Rev. Dr. Lewis S. Mudge last evening delivered the baccalaureate sermon to the graduating class of the Harrisburg Academy. A section of the main auditorium was reserved for the class, which marched down the aisle and occupied its station. Friends and relatives of the graduates occupied the auditorium to capacity.

The Rev. Dr. Mudge's theme was the work of man in the world. "Whatever you have to do," he said, "do it so you can say, 'I am doing a great work.'" The world, he contended, is a great workshop for man to work in and with. The heavenly planets offer a field for the astronomer. The power of imagination is the tool of the artist, the architect, the musician and the writer. But greater than all these is the soul of love, with which all can work, making the world citizens a powerful brotherhood.

"Man has a marvelous working equipment to work with in the world," said Dr. Mudge. "With the hand he can execute wonders conceived by the imagination. But turn to the soul of love, which is greater than all, and a people, empires, overthrown, countries governed, all by the power of love. Bringing all to the highest test, it is impossible to judge men by the things they do in life. Not that which is on them, but that which is in them; not by their mental make-up, but by their spiritual."

"Develop the soul and all its relations to life. Those who are doing things to lift the world heavenly are doing better than all other works. As a people, we must realize that brotherhood is better than business things."

**The Basque Is Coming Back Into Fashion**

French houses are predicting the basque for the not distant future and while it is a little early to wear what it will be universally adopted the costume of the sketch looks very much like a forerunner. It was worn at one of the races held near Paris very recently.

The long tunic of the skirt, which reaches to within three or four inches of the skirt proper, is extremely full and is indicative of the shorter and wider skirt which may soon become popular. The effect of this tunic is very new and smart. The material used for the costume was a very soft and light quality duvetine in a dark shade of blue. A little roll collar of white organdie finished the neck and a touch of the same material was introduced on the cuffs. The only trimming was a half-dozen medium-sized black buttons, which started at the V-shaped neck and extended almost the length of the waist, and this was pulled down loosely over the hips and gave somewhat the effect of the loose girdles which we are now wearing.
