1 It is only fair to say that a performance such as that of last night would be impossible without a pianist of the brilliancy and capacity Newell Albright manifested. The transcription of a so complicated an orchestral score into a piano idiom is within the ability of an artist only. Even the color effects of Berlioz's gorgeous orchestration were suggested in the "Sylph Ballet" and the "Ride to Hell" and his playing of the Liszt transcription of the "March" made a splendidly brilliant close to the first part.

The club, too, sang with a spirit and snap never before heard. Perhaps because of the stimulus of the splendid singing and beautiful tone of that small, well selected body of women's voices, for the male choruses in the Aucrbach cellar scene were a revelation as well as the accompani-

## Federal Pitcher Is Sustained by Court

By Associated Press

Chicago, Ill., June 3.—Judge Foell, in the supreme court of Cook county, to-day sustained the injunction restraining "Chief" Johnson from pitching for any team except the Cincinnati Nationals, and by his decision stopped what threatened to be an extensive raid on organized baseball. Scores of players, including a dozen or more stars, were ready to jump to the outlaw league at the word that Johnson's case had been decided in favor of the Kansas City Federals, whom he joined after deserting Cincinnati.

The injunction restrained Johnson from playing only within the State of Illinois, but while he could have pitched in games outside, the Kansas City club declined to let him rather than take a chance in prejudicing his case.
