RESIGNATION CLIMAX TO "NIGHT OF IT"

[Continued from First Page.]

another officer from the Mayflower to the Navy as well. Secretary Daniels' resignation was reported to the public by the press. The reports followed a night of hilarity on the yacht which began when the officer brought two women on board as his guests. It is said they had dinner and then continued the entertainment until morning. The other officers in Washington, who were on duty at the time as officers of the deck, a seaman looking through a cabin light saw such performances that he reported immediately to the officer of the deck. Failed to Take Action The man on deck received the report and ordered the man forward. He failed to take any action and after he was relieved from duty went below and joined the party, for a time, at least, himself. The officers were two of the most popular officers in Washington. They had the entire to the homes of the most exclusive families in that most exclusive of all society sets, the old Washington set, as well as to all the social circles of the city. The officers had entertained extensively. The President's daughters and Miss Helen Taft have been not infrequently guests at entertainments on the Mayflower. The most popular of Washington's charming debutantes of the last season and the present have frequently gathered there for dances, teas and dinners. The two officers have been guests at the White House and they have been the guests of the Secretary of the Navy as well. Secretary Daniels realized fully how extremely disagreeable publicity for this scandal would be to the President and to many of Washington's most prominent families. He made unusual efforts to suppress it. Newspapermen inquiring at the Navy Department about the resignation were informed that the officer had reached the conclusion that a business career would offer him better opportunities and resigned to embark on one. But an investigation of the Navy Department records shows that his resignation was officially accepted "for the good of the service." That he was permitted to resign at all is due to the desire of the administration to keep the scandal quiet.
