PROHIBITIONISTS TALK STATE ISSUES

Not Content to Go Along on Prohibition Alone in Their New Platform

RAPS FOR LOCAL OPTION

State Officers Re-elected at Sessions Held at Ridge Avenue Church Yesterday

The Prohibition State committee re-elected its officers and adopted a new style of platform, one check full of State issues in addition to the time honored declaration for prohibition last night. The committee held three sessions, making up for slim attendance by devotion to work. The candidates came to town and gave a series of talks and several other men spoke.

Officers elected were: State chairman, Dr. B. E. P. Prugh; treasurer, T. H. Hamilton; secretary, Henry S. Gill, also an executive committee composed of J. Rummel, Isaac Mondereau, George L. Penneck, D. B. McCalmont, James Peebles, the Rev. J. H. Daugherty, Albert Gaddis, E. J. Fithian, E. B. Lacey, John J. Rankin.

The Prohibition State committee of Pennsylvania in convention assembled this third day of June, 1914, recognizing Almighty God as the source of all authority among men and nations, and Jesus Christ, His Son, as King of Kings and worthy to be crowned Lord of all, hereby adopt the following declaration of principles as our platform:

We stand for the complete abolition of the manufacture, sale, importation, exportation and transportation of all alcoholic liquors for beverage purposes.

We believe that such abolition must be accomplished by a wielding of all the powers of government by a political party in power committed to such a policy.

We demand the immediate repeal of the United States internal revenue law so far as it applies to intoxicating liquors.

We believe that the local option plan, in dealing with the saloon, is wrong in principle and ineffective in application.

We declare for woman's suffrage and believe that the right of suffrage should be based upon morality and intelligence rather than sex.

We stand for the enactment of such laws as will always subordinate property rights to human rights.

Womanhood and childhood have certain inalienable rights which should be more securely safeguarded against the agents of vice and of unscrupulous commerce.

We stand for compulsory arbitration of contract disputes between corporations and their employees.

We stand for the enactment of a just and equitable employers' liability law.

We believe in the public ownership of public utilities.

We demand a complete revision of the taxation system of the State in accordance with principles of justice and equity.

The streams of the State should be adequately protected from defilement.

There should be legislation providing for a system of durable and permanent highways to be economically constructed and supervised free from partisan influence and control.

We favor the conservation of the Sabbath as a day of rest and advocate the closing of the saloons on Saturday half-holiday as conducive to that result.

We stand firmly by the American principle of absolute separation of church and State and against the appropriation of public funds to sectarian purposes.

We declare that all children should receive their education up to the age of fourteen years in the public schools, from which all sectarian influences shall be shut out.

"WHITE WOLF" AND HIS GANG DEVASTATE MORE TOWNS

Peking, June 4.—"White Wolf," the Chinese brigand who during the past few months has devastated the provinces of Hu-Peh, Ho-Nan and Shen-Si, is now looting and burning towns and villages in the province of Kan-Su.

After eluding the great army of troops sent to capture him by the Chinese government, he yesterday set fire to the town of Ningehow and his followers to-day attacked Tao-Chow, in the extreme south of the province, and after pillaging the inhabitants burned it to the ground.

If the day and the night are such that you greet them with joy, and life emits fragrance like flowers and sweet scented herbs—is more elastic, more starchy, more immortal—that is your success.—Thoreau.

CITY PLANNERS TO BE OF ASSISTANCE

A result of the present inadequately lighted roads; the danger to vehicles from the searchlights on automobiles now made necessary by the present inefficient system of lighting and the fact that searchlights would be unnecessary if the roads were properly lighted; the fact that good interurban highway lighting tends to make the outlying localities safer and more livable, and thus helps to form in the minds of the people of the rural districts some idea of what constitutes adequate lighting and wherein the advantages of the proposed plan are worth the possible increased cost.

The report suggests as the quickest and most effective educational methods, the adoption of a campaign of newspaper publicity, addresses before boards of trade, chambers of commerce and other commercial bodies, automobile clubs and personal work with various committees of county and city who may be appointed to cooperate. A demonstration of a proposed lighting system on some stretch of interurban highway where the travelers may see for themselves the advantages of the system, was also suggested. Continuing, he said:

Farmers Want the Service Charges for this class of business must be comparatively low and as most of the cost will be due to investment and overhead charges, it is essential that every effort be made to secure lighting, power and appliance business

TO-MORROW, FRIDAY, ASTRICH'S TO-MORROW, FRIDAY

HOPE TO OPEN DOCK ST. BRIDGE IN 2 WEEKS

[Continued from First Page.]

nine feet high span the tracks. A 25-foot roadway is provided, insuring ample room for the passing of motors and other vehicular traffic and the trolley line. On each side of the roadway is a 7-foot walkway. The tall girders flanking the roadway screen the traffic from the pedestrian on the walkway.

While the Central Construction and Supply Company is hustling the Dock street bridge job other improvement work about the city is being pushed ahead. On the river wall Stucker Brothers Construction Company has gangs employed at three different points. Below Faxon street earth

following amounts were expended for these general purposes: Postage (let-

WITNESSED THE FLOODS AND ICE

The river has fallen to such a stage as to make the rim of the dam visible and also to give a fair idea of how well the walls withstood the winter's rush of ice and high water. With the exception of a comparatively big stretch on the eastern side of the river and a smaller section west of the island, the dam is completed. The gaps cannot be entirely closed, however, until the wall is nearer completion, as the high water would interfere with the progress of the work on the wall. With the possible exception of this gap, the dam will likely be finished this summer.

Excavation on the north side of Mulberry street for the front street subway was begun this morning, when the steam shovel was moved in position across the tracks.

PENROSE SPENT \$14,640.73

Senator Boies Penrose spent \$14,640.73 on his campaign for nomination by the Republicans for United States senator. Congressman A. Mitchell Palmer expended \$2,541.44 in his contest for the Democratic nomination and Gifford Pinchot, Washington party nominee, spent \$2,755.53.

The time for filing expense accounts of candidates expired last night at midnight and committees organized in the interest of candidates have fifteen days remaining in which to enter their statements at the Capitol.

Senator Penrose's statement shows no contributions and expenditures of \$7,191.71 for advertising and printing, \$1,966.92 for clerk hire, \$1,249.77 for hotel expenses and \$2,438.86 for postage. Mr. Palmer received \$2,050.47 from Robert Toland, treasurer of the Palmer-McCormick campaign committee, \$250 each from Asher Johnson and Robert S. Bright and \$100 from M. F. Doyle. His expenses were largely clerical and traveling. Mr. Pinchot received no contributions and gave most of his payments to the Washington party state committee.

RYAN AND LEWIS

Michael J. Ryan, candidate for Democratic nomination for Governor, spent \$2,723.49 for headquarters, clerical work, hotel bills and traveling and expenses of men traveling with him. Daniel Wade contributed \$300 to him. William Draper Lewis received \$1,514.36, among the contributors being Harrison S. Morris, \$548; Charlton Yarnall, \$100; W. J. Turner, \$150; Thomas Robins, \$125. He expended \$1,191.55 and has \$322.81 bills unpaid.

Other accounts filed were: C. N. Brumm, no contributions, spent \$2,074.53; George Kunkel, no contributions, contributed \$500 to campaign fund of committee in his in-

FIVE HURT AS AUTO SKIDS INTO TRUCK

[Continued from First Page.]

to the car, has a fractured leg. In the party also were Mrs. McCosh, who was slightly bruised and suffering from shock; the Rev. George W. Nicely, pastor of St. Mark's Lutheran Church, Hanover, slightly cut, and Chauffeur Foreman, who is cut a bit about the face.

The Hanover party's car, which is a light touring machine, skidded on the wet pavement and went into a big truck, also coming this way. The police are now trying to find out whose truck it was, because it did not stop, but lumbered on up Market street. The less injured in the Hanover party think it was a red truck, but they are not sure. All they remember was being in different angles in the road, and then the police ambulance came up and took two to the hospital and came back for a second load.

The machine, which was pretty badly wrecked, was one of a dozen cars making the run from Hanover to attend visitors' day exercises at Loysville.

Veta Solves the Polishing Problems NO more "back-breaking"—"dirt a flying," "clothes all dirty" jobs. Veta is the cleanest, easiest and most economical way to "shine up" you have ever tried, and you can't possibly get soiled because Veta polishes come in a "Clean tube." A pressure does it. In addition Veta polishes are made of the best materials that can be put into a polish.

Keeps Hands Clean A Brilliant Shine VETA STOVE POLISH VETA SHOE POLISH will make that red, rusty stove look like new and keep it looking that way and then it's so very easy to apply. Veta Shoe Polish is fireproof and lasts long. Tube of polish, brush and dauber are in one, the tube fits in handle of brush, an opening permits thumb to press it when applying. That's all—no fuss, no dirt; always ready for instant use. Single tubes, 10c. Brush and dauber, 40c. Shines shoes in a jiffy. No dirty, sticky lids to knock off, you just press the tube and go to it and get the dandiest looking "shine" you have ever had; a brilliant rain-proof lasting shine. Veta outfit, consisting of tube, mitt or dauber with polishing cloth—25c, in black or tan, at all dealers. The Veta Manufacturing Company ALLENTOWN, U. S. A.
