

WOMEN AND THEIR INTERESTS

DEVIL EXISTS IN MANY FORMS

BY ELLA WHEELER WILCOX

There are many religions in this world, and all are supposed to be intended for the helping of human beings toward the goal of God. All religious organizations are understood to be established for that purpose.

To save souls and help the race, is the desire of every devout man and woman of each and every creed.

But how many men and women exist in the world to-day who so desire to save souls and to uplift humanity that they are ready to say Godspeed to their own special field of endeavor?

He who really loves his fellowman, and who really desires to uplift them, feels as the mother of a child would feel if she knew her child was asleep in a burning building. She would cry: "God bless you all and speed you to the saving of my child," as she herself hurried to the scene.

And she would care not at all for the race, or name, or creed, or lodge of the savior. She would care not at all whether it was a licensed fireman, or a casual passer-by; whether it was her friend or her foe; only that her child was saved.

How many such clergymen, or prelates or toilers in the vineyard of God have we in the world to-day?

As few as we have physicians who are broad enough to rejoice when other schools of medicine or other methods

of healing cure a sick man. As few as we have of humanitarian workers who give the right hand of fellowship to other societies which are trying to lessen cruelty in the world.

Self! Self! Self! It creeps like poison miasma into the churches, into the religious societies, into the humane organizations, into the charitable institutions.

The King's Daughters are slow to congratulate the Sunshine Society on its success, even though it is working for the same purpose, and vice versa; S. P. C. A. shows no heartfelt joy when the Humane Society increases its membership, though one goal waits both; and no more generous spirit is shown by the latter to the former.

Church is set against church in rivalry; and resentment, not rejoicing, is exhibited when one surpasses the other in membership or popularity.

The metaphysical societies, New Thought, Christian Science, Mental Science, are torn with rivalries and are at enmity in their attitudes to one another.

Each church seems to be crying to its child in the burning building: "You must burn alive or be saved by me alone. Distrust all who seek to reach you before me, for the peace that passeth understanding go with her and her Temple."

May they be surrounded by the Circle of Divine Love, across which only good can pass.

The Daily Temple is one place of worship in Gotham where you may go and pass a quiet hour, and no one will ask you to pay for the privilege, then or afterward, and none will try to convert you to a creed not your own. You will be allowed to worship your own way.

The loose coat that flares over the hip is the very newest and smartest one for general use. Here is a model that can be made available for motoring and traveling and also for all utility purposes. It is made with raglan sleeves that mean no difficulty with the fitting. It gives exceedingly smart lines while it is also exceedingly simple. Coats of the kind are made from a great many different materials but nothing is smarter or more serviceable than the Scotch frieze with trimming of plain duvetyne. The patch pockets are both convenient and smart. Altogether the coat is one of the most practical that could be devised.

For the medium size will be needed 5 3/4 yards of material 27 inches wide, 4 1/2 yards 36, or 3 1/4 yards 44, with 3/8 yard 27 for the trimming.

HENRY J. HUEPEL IS NOW HAPPY

After Four Years of Hawking and Spitting Cured With Quaker Extract and Oil of Balm

And still they come. Read this case. Henry J. Huepel is now 29 years old. He is an ironworker employed at the Steelton works. For the past four years he has had a bad case of catarrh of the head. When he awoke in the morning he would have a terrible spell of coughing, hawking and spitting. He could hardly breathe. His breath was bad and tongue coated. He had constant roaring and buzzing in his ear, pains above his eyes and he felt generally bad. He had used inhalers and atomizers to force different drugs into his head, but they all seemed to make him worse. He finally called at Kennedy's drug store. He obtained Quaker Extract and Oil of Balm, and according to his own assertion, made at the drug store this morning, he is now well.

The remarkable part of this cure is that it was made in a little over two weeks. Baby Martha Ungheuer, aged 23 months, was restless, nervous and puny and had three attacks of spasms. Some claimed it was from teething,

others said it was from a bad stomach, some said it was from worms. Who was right? Small doses of Quaker Extract were given to the baby and yesterday she expelled not one, but hundreds of little pin worms. Now the dear child is well, cured by Quaker.

If you suffer with rheumatism, catarrh, kidney, liver, stomach or blood troubles, call and obtain a treatment from W. H. Kennedy's, 30 South Third street.—Advertisement.

Ford Buys Hospital For Detroit's Poor

Detroit, Mich., June 5.—Because one of the 10,000 unemployed who were drenched with a fire hose here last January while seeking employment at the Ford plant contracted pneumonia and tuberculosis as a result of the episode and Henry Ford could not find hospital accommodations for him in the city, even by personal search, the motor car man to-day made an offer to the directors of the General Hospital, now in course of construction, to take over the project, repay all subscriptions, complete the structure and make it a poor man's hospital. He will spend \$2,000,000 on the project to complete it and as much more as may be necessary to keep it running. The offer undoubtedly will be accepted.
