After a series of thrilling chases over land and sea, and after she has regained the documents, Lucille is captured by one of the South Sea islands by a sailing vessel. CONSTITUTIONALITY OF AUTO FUND

In some instances a depth of ten feet was necessary, in others a greater depth was tried out. But in the sixty-foot stretch the excavations were deeper and an extra depth of ten feet was attempted with steel rods. No rock was touched however, and the engineers of the Board of Public Works overnight drew up a substitute for rock foundation that marked the most remarkable engineering problem of the job.

RIVER DAM WILL BE FINISHED BY OCT. 1

above the pumping station while excavations for "stringers" are being built above Calder street. The frame forms have been put in position there.
The river dam will be improved, it is expected, before the end of the summer. The concreting has been completed from the creek mouth to Sveamore street and from Market street to few hundred feet south of State Excavation from that point to the concrete work at Rely street is under way. The city treasurer to-day paid the creek contractors \$2,402.54 as an estimate on the job.
The Chambersburg Motor Club will make the first tie "run off" to-morrow. From ten to thirteen cars will be in the race. One of the checking controls will be Market Square, Harrisburg. The cars will come in from Lancaster at approximately 2:56 p. m. and each other of the cars will follow in approximately every three minutes. All cars will be required to stay in Harrisburg just one hour providing they check in on time. The original run which was held on May 28, 29 and 30, consisted of twenty-five cars, the route being over the National pike to Pittsburgh and return via the Lincoln way, in this run thirteen cars finished perfect and this run on Tuesday is only open for these thirteen cars and they will battle it out for the first five prizes which will be awarded.
The route these cars will follow is as follows: Chambersburg, Gettysburg, York, Lancaster, Elizabethtown, Harrisburg, Carlisle, Shippensburg and Chambersburg, a total distance of 164 miles and a running time of seven hours and six minutes will be allowed, with only two stops, those being in Lancaster and Harrisburg. It is requested that all possible courtesy be shown these contestants as they pass through Harrisburg on Tuesday afternoon, June 9, about 3 o'clock.
Fletcher Praises Work of Officers and Men
Washington, D. C., June 8.—"Resourcefulness, courage and devotion to duty of all officers of the landing force was everything that could be desired and reflected the highest credit upon our naval service," declared Rear Admiral Fletcher in a report accompanying his story of the seizure of Vera Cruz, made public to-day by the Navy Department.
Numerous officers of the navy and marine corps who distinguished themselves by cool indifference to danger and skill in handling their men were named for special honor. Three were picked for "eminent and conspicuous conduct in battle." They were Captain W. R. Rush, Lieutenant-Colonel W. C. Neibach and Lieutenant-Commander A. Buchanan. Quite a number of other officers and men were named in the report.
