JUDGE GEORGE KUNKEL

Official figures of the votes cast in e nonpartisan primary for nomithe nonpartisan primary for nomi-nation of judges of the Supreme and

nation of judges of the Supreme and Superior Courts were secured at the Capitol to-day, the last of the returns having been received this morning, and they show that the names of the following judges will go on the ballot in November:

Supreme Court—George Kunkel and Robert S. Frazer.

Superior Court—Frank M. Trexler and James A. Clark.

The figures show that Judge Kunkel received over 11.500 votes more than Judge Gustave A. Endlich, of Berks, while Judge Trexler got an even 200,000 votes, probably more than polled by any candidate in the whole state-wide primary. An analysis of the vote indicates that Judge Kunkel is a sure winner at the elections in November.

Pittsburgh, Pa., June 9.—The Allegheny Congenial Industrial Union, made up of 12,000 members, 10,000 of whom have been striking last Friday in an effort to enforce recognition by the Westinghouse companies, is an independent organization without affiliation with any other labor organization. Its leader, Miss Bridget Kenny to-day declared they wanted "no domination by the American Federation of Labor, the Industrial Workers of the World, or other county Socialist organization." The Union, she said, had only one object and that was the welfare of the Westinghouse employes.

New York, June 9.—The market closed steady. Quiet strength attended to-day's limited dealings in stocks. Special issues responded to concerted buying. Traders' realizing caused some recessions in the late dealings, but the general undertone was good.

HOW HE DOES ACHE!

VANCE C. McCORMICK fairly aches to serve the dear people. He says so himself. If he could only be elected Governor how he would stand up for "human rights!" No "middle of the road methods" for him; no "half way measures" would suffice. Reorganize—yes, that's what he would do—reorganize everything. And such economy he would have! Bless us! there would be no money wasted under him.

Mr. McCormick—millionaire—deems himself fully competent to run the State on economical methods. Why, hasn't he just given us all an object lesson in rigid economy? To be sure he has. He wanted the nomination at the Democratic primaries. He told the people so. He went before them and talk to them and urged his competency upon them. All that he personally spent out of his ample fortune to induce a goodly attendance of them at the polls was \$33,000! That was all, save for a few extra dollars and cents over and above the \$33,000.

There was economy for you! Why, he could have spent twice as more than the polls of the competency when he right of the could have spent two at the election. It was necessary to prove that he can be economical whom he tries of the entire four years would be out he says do not be elected, his salary for the entire four years would be ould he be elected, willing to pay much more than he receives ou in \$40,000. Thus he is willing to pay much more than he receives out \$40,000. Thus he is willing to pay much more than he receives the teach economy of administration to the public? Could he better demonstrate how dreadfully he aches to serve the people?

DIVA NAMES OTHER WOMAN; GETS DIVORCE

'Way up in Wayne township some folks have evidently been overdoing this thing of making hay while the sun shines—they're doing it Sundays. William D, or rather "Bill" Engle, the town constable, is on the job though and he can't be fooled; he proved that yesterday at the opening of June Quarter Sessions Court when he turned in his quarterly report as Wayne township's guardian of the peace Not only did he pointedly call the court's attention to the matter, but he tacked on a subtle sort of word-to-the-wise-ls-sufficient tip to whom it may concern, etc

Among other stereotyped questions in the report blanks that have to be answered by the constables, is this:

"Which offered Constable "Bill" Engle, just the chance he wanted; hence his answer.

Wone as far as I know of. But look here, how it is about a man hauling hay from one farm to another on word-to-the-wise-ls-sufficient tip to "Corney Enders—Halifax, R. F. D."

TO SWITCH ON 16 **CLUSTER LIGHTS BY** END OF THIS WEEK

Standards at Intersections in East and West Ends Now Being Installed

BUSINESS DISTRICT

Contract For All Ornamental Illumination Expires on Same Date

By the end of the week the new standard cluster lights at his intersections of Derry and 13th, Market and Thirteenth, Third and Verbeke and Sixth and Maclay streets, will be switched into service by the Harrisburg Light and Power Company.

The sixteen additional standards were provided through the efforts of City Commissioner H. F. Bowman, superintendent of public safety. The lighting of the ornamental standards will mean the removal of the overhead arcs at these points after the same plan that was adopted for the commercial district. Incidentally this will mean deduction of four in the city's total.

The sixteen standards were contracted for on precisely the same terms which governed the installations in the business district. The contract for all the ornamental street lights expires at the same time, September 1, 1922; all the standards were obtained at the same figure. For each standard of five clusters the city bays \$85 per year for service—at the rate of \$17 per year per globe. To this is added \$6 a year for nine years to pay for the installation—in fact all expense and equipment connected with the work.

The Lighting Contract

In contracting with the city for the ornamental standard lighting the electric light company offered the standards and equipment, cost of installation, etc., for \$54 per pole, the sum to be paid in equal instalments of \$6 per year for the life of the nine year contract.

The ordinance authorizing the installation of the sixteen new lights was passed by council some months ago. Unlike the arc light section of the city's street lighting contract, no reduction is made for the cluster standards.

Swaths Her Pretty Ankle With a Crisp Ten Dollar Bill

With her left ankle wrapped with a crisp new ten dollar bill, a young woman caused a sudden depression in business as she promenaded up and down Market street this morning.

There was just one bank note. It fitted neatly about the ankle. There was no question about the denomination of the bill. The young woman also wore white silk stockings. Furthermore they were drop stitch, often termed "open work." That is why the ten dollar bill was so plainly visible. A slit skirt of the latest style was a factor in the display of the neat ankle adornment.
