Before another fortnight passes the Stough evangelistic campaign committee of Harrisburg will open an office in the central part of the city to take care of the great volume of business which will have to be handled before the big revival which opens here on November 1.

E. Z. Gross, chairman of the general executive committee, last night at a meeting of this body was directed to appoint a committee to procure campaign headquarters. This committee will be appointed this week and it will make a report at a meeting of the executive body within the next ten days.

In accordance with action taken last Friday by the co-operating ministerium of the campaign organization, letters were sent out this morning to every church within a ten-cent fare limit of Harrisburg inviting them to join the big Fall revival. The Rev. E. E. Curtis, chairman of the ministerial body, will also report to the executive body on the acceptance or rejection of these invitations within ten days.

At a meeting of the executive body last night the resignation of Miss Lydia Forney, chairman of the neighborhood prayer meeting committee, who is too busy to carry on the work, was accepted. Her successor will be appointed within the next two weeks. The list of com-

mitteemen who will be appointed to carry on the work of the campaign was not completed last night and will not be finished before the latter part of this week. It was decided last night to ask Dr. Henry W. Stough and his associate, Dr. Cartwright, to attend a conference of the executive committee here after the close of the Hazleton revival.

BRIDGES RUSTED BY SALT
Recent investigations of the Illinois State Highway Department indicate that few highway steel bridges in that State are painted after their final completion and acceptance. Very serious corrosion results and is illustrated in a number of cases. A serious factor in the corrosion of iron and steel is the use of salt to clear the roadway of snow and ice. This was considered at least partly responsible for the bad condition of truss members in a bridge which had been about fifteen years in service.—Engineering Record.

HOSPITALS GIVEN OFFICIAL NOTICE

Must Be Prepared to Furnish Facilities For Instruction of Their Internes

Hospitals of the State have been given notice by the State Bureau of Medical Education and Licensure that they must be prepared to comply with the requirements of the medical education act of 1913 relative to internes for the year beginning May 31, 1915. Under the act every medical graduate desiring to take the State examinations for licensure must serve a year as an interne in an approved hospital.
For a hospital to obtain approval it must have twenty-five beds to each interne; department of anesthesia, adequate clinical and pathological laboratory and arrangement for obstetrical service. It is provided that special

hospitals may establish co-operation with a general hospital wherein the interne may receive credit for limited service on their general term. Owing to time required for hospitals to be prepared the bureau will approve all of the hospitals this year, as in the past.
The bureau announces examinations in Philadelphia and Pittsburgh for drugless therapy and chiropody, June 29 and 30.
