SAYS SULPHUR DRIVES ECZEMA FROM THE SKIN

Use like cold cream to instantly stop itching and clear the skin.

Sulphur, says a renowned dermatologist, just common bed-sulphur made into a thick cream will soothe and heal the skin when irritated and broken out with Eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the Eczema disappears, leaving the skin clear and smooth.

He tells Eczema sufferers to get from any good pharmacy an ounce of the bold-sulphur cream and apply it to the irritated parts the same as you would any cold cream.

For many years common bold-sulphur has occupied a secure position in the practice of dermatology and cutaneous affections by reason of its parasite-destroying property. It is not only parasiticide, but also antipruritic, antiseptic and remarkably healing in all irritable and inflammatory conditions of the skin. While not always effecting a permanent cure it never fails to instantly subdue the angry itching and irritation and the Eczema right up and it is often years later before any eruption again appears on the skin. This is published for Walter Luther Dodge Co., Cincinnati, O.

NEW STYLES MAKE HAIR BLEMISHES EMBARRASSING

Society Women Now Remove
Superfluous Hair, Since An
Absolutely Safe Way Has
Been Discovered.

Again Paris has decreed the open neck and short sleeve dresses, and the fashion is highly embarrassing to women afflicted with unsightly hair growths on neck and arms. They find it humiliating to appear in public, to recall all social affairs,—until they learn about El Rado. This liquid hair remover is absolutely infallible in its effect, and is positively harmless. It is proved conclusively by the fact that many physicians use the ingredients in El Rado for exactly the same purpose, hair-removing.

El Rado acts instantly. A few drops, a simple application, and the coarsest hair vanishes in a few moments, leaving the skin smooth and velvety, even whiter than before. As an aid to good looks
