# "I was all run down to the very bottom," writes F. Gagnon. "I had to quit work, I was so week. Now, thanks to Sargol, I look like a new man. I gained 22 pounds in 23 days." "Sargol has put 10 pounds on me in 14 days," states W. D. Roberts." "It has made me sleep well, enjoy what I ate and enabled me to work with interest and pleasure." "I weighed 132 pounds when I commenced taking Sargol. After taking 20 days I weighed 144 pounds. Sargol is the most wonderful preparation for flesh building I have ever seen, declares D. Martin, and J. Meier adds: "For the past twenty years I have taken medicine every day for indigestion and got thinner every year. I took Sargol for forty days and feel better than I have felt in twenty years. My weight has increased from 150 to 170 pounds." When hundreds of men and women—and there are hundreds, with more coming every day—living in every nook and corner of this broad land, voluntarily testify to weight increases ranging all the way from 16 to 35 pounds, given them by Sargol, you must admit, Mr. and Mrs. and Miss Thin Reader, that there must be something in this Sargol method of flesh building after all. Hadn't you better look into it, just as thousands of others, have done? Many thin folks say: "I'd give most anything to put on a little extra weight, but when someone suggests a way they exclaim, 'Not a chance. Nothing will make me plump. I'm built of stay thin.
