Spikes Guns of Allentown's Artillery Early in Yesterday's Battle

BY "UMP"

General Joseph Chabek, the mound ighter, spiked Allentown's gun in very inning yesterday. He won his ighth straight battle, score 5 to 2. Back of the veteran twirler was a lassy bunch of baseball players, who nade it impossible for the Teutons to tet a hole through the strong field

Early in the game Chabek put the llentown artillery out of business. At atervals Castle's battery men manged to get in a clean shot, but they ere wasted except in two innings, ged to get in a clean shot, but they were wasted except in two innings, when Chabek was in the presentation nood. The victory keeps the Cockili rew in the running for first honors. Ramsey, heralded as the coming Fri-State pitching star, was on the blink. Fearing that the usual Harrisburg rally would come in the eighth, ind not caring for an overwhelming ictory, Johnny Castle sent in Kunkel, he Shrewsburg boy. Kunkel was easy icking for the short time he occupied he mound. Whalen, Cockill and Crist vere the star hitters.

The game was featured with snappy layering. Allentown started with a un in the first on singles by Murray and Cannell, and a wild pitch by Chalek. In the fourth a pass, single by stutz, and McGeehan's sacrifice and Valen's home run opened Harrisburg's score with two runs. An error y Ramsey, two singles, a double steal and a foolish throw from left field by Lastle, added two more in the third. First's single and Cockill's triple added he fifth. The score:

# Indian Motocycle

### is the only machine with an international reputation

In 1913 the Indian went through every kind of test that could pos-sibly be devised for a motorcycle.

The Indian made a clean sweep of the National 250-mile Road Race for strictly stack machines held at Elgin, Ill. Indian riders finished 1-2-3-4-5 out of a field of fifty-two starters mounted on all prominent makes of American machines.

In the great endurance run of 441 miles across the desert from San Diego, Cal., to Phoenix, Ariz., over boulder - strewn mountain trails and trackless sand wastes, Indian riders finished first, second and fourth, against a field of 19

experienced riders mounted on the most representative American machines. Official time shows the winning Indian to have arrived four hours ahead of the first ma-chine of any other make.

Big events in England, Scotland, Ireland, France, Germany and India were also won by the Indian. The Indian is continually in com-petition throughout the world— continually being put to the test.

Indian power, speed and dura-bility are known factors. They are demonstrated often—they are relied upon often—they win al-most invariably 1
