## PEACE PROSPECT FOR MEXICO NOT BRIGHT; **GOVT. IS DOUBTFUL**

Washington Hopes Mediation May Win; Outlook Is Very Gloomy

HINGES ON HUERTA

White House Insists New Provisional President Must Be Neutral

By Associated Press

By Associated Press

Washington, D. C., June 18.—While administration officials said to-day they still had hopes for a successful outcome of the mediation at Niagara Falls, they were more doubtful than they have been at any time, probably since the conference began.

Officials close to the President feel that Senor Rabasa's published note of yesterday disclosed anew that the Mexican delegates are consistently holding out for a Huerta adherent for the provisional presidency despite the fact that many such men have been mentioned as "neutrals."

President Wilson is equally determined in his view that unless a man approved by the Constitutionalists is chosea the new provisional government will be in trouble from the outset. White House officials said that when the reply of the American delegates to Senor Rabasa's note was published it would be a sufficient explanation of the attitude of the United States.

F. J. Smith, an American imprisoned in Tonola, state of Chiapas, several weeks, pending investigation of the killing of some Mexicans, has been released.

Rear Admiral Badger reported that Smith and his family were in Guata-

Judging of Horses Big Feature of Morning; Paxtang Bull Admired by Hundreds

By Staff Correspondent

Big Head Woods, Hogestown, Pa., June 18.—Clear skies and perfect weather brought out one of the largest crowds which ever attended the annual Hogestown Horse and Cattle Show here. Estimates fixed the number of people here from 5,000 to 6,000.

Throughout the day dozens of horses of all breeds and used for various purposes were led into the judging ring to be passed upon by the horse expert here. The animals were shown hitched to carriages, wagons and saddled, while others were led to the ring without harness. The horses are always a big attraction, but from indications the equines this year far surpass those of other years both in breeding and in number.

## Peace in Mexico By Advertising

The advertising director of a rge New York store says: "If it were possible to start a campaign of advertising and to make clear to the peons of Mex-ico the advantages of peace, war would soon end."

This man is a believer in the printed word. He regards good truthful, well written advertising as the most important factor in modern business life.

And of all advertising mediums he prefers the newspaper, for his experience has taught him that it gives the greatest returns for the least expenditure.
