### EASY WAY TO STOP HAIR FROM COMING OUT

A harmless home remedy compounded principally from the powerful juice of the Pernambuco shrub has been found highly effective in promptly checking the falling of hair from the scalp. Men and women whose hair is growing alarmingly thin and falling out badly every day should try it without fail, as the ingredients are perfectly harmless and very inexpensive and the whole thing can be prepared at home or by any druggist. Merely mix together in an 8 oz. bottle 2 oz. Lavona Compound, 6 oz. Bay Rum and ½ drachm of Menthol Crystals. Shake well and allow to stand for an hour, when it is ready for use. The Lavona in the above is the pharmaceutical name of the Pernambuco juice as diluted and scientifically prepared for medicinal purposes. To stop the hair from coming out and to quickly start a fine growth of new hair all over the scalp, rub this lotion briskly into the scalp with the fingers tips or a medium stiff brush for about five minutes each night and morning. After three or four days' use in this way you will not find a single loose or straggling hair. Dandruff will disappear and itching cease and you will find a thick growth of fine downy new hairs, which will grow with amazing rapidity.—Advertisement.

### WANT TO FILL OUT RIVER BANK FROM MARKET TO MULBERRY

### Stucker Brothers Will Offer Earth From Front Street Excavations

Permission to fill out the slopes of the river bank from the eastern edge of the proposed walk along the wall to the level of the present depressed street between Mulberry and Market streets, will be asked of the City Planning Commission and Park Commissioner M. Harvey Taylor by Stucker Brothers' Construction company.  
The construction company is excavating under the Cumberland Valley bridge for the Front street subway. The disposition of the excavated earth is more or less of a problem from an economic viewpoint and the purpose of the contractors in asking the city's permission to make the "fill" is to save the cost of long hauling.  
Plans showing the proposed method of filling are now being prepared by E. Clark Cowden, the contracting company's engineer, and the letter with accompanying plans will be sent to the city authorities within a few days.  
Just how much earth would be used is a matter of conjecture but it would be from 20,000 to 30,000 cubic yards. The plans show that the bank slopes may be filled out along a tapering line from Mulberry to Market street. At Mulberry street, for instance, the fill would, according to the plans, be extended to a point sixty feet westward from present line and gradually narrowing to a width of six or eight feet at Market street.  
The depth of the proposed "fill" would vary from seventeen feet at Mulberry to approximately twenty at Market street. The contractors' letter will explain that about 25,000 additional square feet of park land would thus be gained by the city. The earth will be hauled and dumped free, the letter will say.  
The filling in as suggested would mean, however, that the tall trees and other shrubbery, on the present slopes would have to be buried or removed. Whether or not the city authorities would think favorably of the plan is questionable. It is pointed out that the ground beneath the trees that now line the bank of the river below Paxton street and the walk along the wall, might one day wish to be used as a playground. The suggested fill would mean the pushing out of the embankment slope to the edge of the wall walk.  
Stucker brothers now are hauling the earth to a point below Paxton street for lack of a better place to dump it. An arrangement had been made with the park department to use the fill along the river below Paxton, but the contractors, it is understood, do not wish to pay for the dumping terms.  
The company had been asked for a price for "fill" for the river front between Mulberry and Division streets and it offered the earth at seventy cents a load delivered on the ground—or to pay the city fifteen cents a load for taking it away at the point of excavation.  
The pair were married a year ago and since then their marital ship has been sailing over anything but a calm and placid sea. Six times during the last several months Krebs has tried to kill himself by cutting his wrist veins. Each time, however, his efforts have been unsuccessful.  
Last night, says the would-be-succidic brother, there was another quarrel and shortly after midnight Krebs told his wife he was about "to end it all." This time, however, he doubtless having lost confidence in the wrist slashing method, Krebs drank sugar of lead.  
He was found unconscious on the bathroom floor before 1 o'clock this morning and was rushed to the Harrisburg Hospital. Late this afternoon the hospital physicians said Krebs would recover for the seventh time.  
Owing to the excitement of the hours before, it is believed Mrs. Krebs was seized with an epileptic fit while on her front porch and it was necessary for the ambulance to take her to the hospital also.

### ON COAL BOARD

At the election of the Coal Merchants' Association, of Pennsylvania, New Jersey, Delaware and Maryland, at Allentown, yesterday, Walter L. Montgomery and J. J. Miltelsten, of this city, were elected to the board of directors.

### CLUB WOMEN FAINT IN CRUSH AT MEETING

### Federation Getting So Large New Form of Representation Is Necessary

Chicago, Ill., June 18.—The greatest convention ever held by the General Federation of Women's Clubs ended here to-day with a session of the board of directors. Mrs. Percy V. Pennybaker, re-elected president of the organization, was authority for the statement that this biennial convention was the largest and most important in its history.  
More than 670 clubs have come into the federation in the two years since the last biennial convention. Mrs. Pennybaker said, and a new system of representation probably would have to be evolved.  
Several hundred women inspected torn gowns here to-day and not a few of them had bruises to treat as a result of the crush last night to get into the auditorium for the closing general meeting, at which Miss Margaret Wilson, daughter of the President, was the orator who attracted most attention. Thousands failed to obtain admission to the hall, police reserves were called out to control the crowd and a number of women fainted.  
"Every town should have a salaried civic secretary employed to promote the organization of citizens," said Miss Wilson. "The principals of the schools should receive additional pay for acting as the secretaries of neighborhood organizations. People must work together, and they can't work together if they don't get together."

### WILSON BARS OLD MEN FROM CIVIL SERVICE JOBS

Washington, D. C., June 18.—President Wilson to-day issued an executive order reducing from 60 to 50 years the maximum age limit for admission to civil service examinations for appointment of unskilled laborers in federal offices outside of Washington, D. C. Veterans, however, may continue to be examined without regard to their age.

### Dandruff Soon Ruins the Hair

Makes it Lifeless, Dull, Dry, Brittle and Thin  
Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't tip.  
It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid acetone, and at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.  
By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.  
You will find, too, that all itching and digging of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid acetone at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

### GOOD FOR NERVES

A person who is "all in," nervous, overwrought, tired and listless, should try one of our Percussion Baths. A small stream of water in control of expert attendant follows the course of the principal nerves and blood vessels. This bath is very stimulating and has powerful tonic effects. ### GLASS IN EYELID

Waynesboro, Pa., June 18.—Dr. Joseph Joseph Ennis removed a piece of glass from the eyelid of Miss Sadie McCahey, of Waynesboro. Some time ago Miss McCahey, while driving in town, was struck by a stone thrown by a small boy. The stone struck her eye-glasses and drove some of the glass into the eyelid above the eye.

### "MOTHER, I LIKE THESE"

She referred to the latest Norman collars and organdie vestees and embroidered crepe collars on display at the Quality Shop, 204 Locust street. Such rare judgment is exercised in the selection of the newest and most appropriate that it seems as if Mrs. Cranston had an intuition of what one really most desires.
