Children's 75c Colored Dresses, 50c 50c Styles are Now 39c

There isn't a little girl in Harrisburg, no matter how fussy she may be in the matter of clothes, who wouldn't be glad to wear one of these cool dresses.

The styles are the prettiest we've seen at 50c and 75c. Some of them are daintily trimmed with contrasting colors and pipings, but the little sleeve touches alone will capture the heart of any little girl's mother who sees them. In checks, stripes and solid colors.

The 75c dresses are now 50¢, and the 50c ones are

of the proposed borough.

This land immediately adjoins the present eastern limits of Paxtang village to the east. It is used now for farming purposes although three or four dwelling houses have been erected there. These are occupied by the owners.

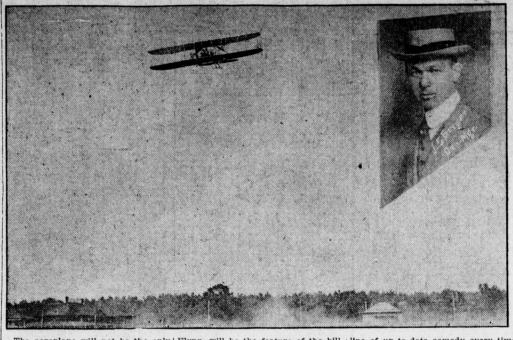

In overruling the prayer of the ex-ceptants Judge McCarrell says: After careful consideration we

are satisfied that while the inclusion of the lands of the exceptants within the borough limits may not be immediately advantages to all people interested as a community will largely overbalance all disadvantages and that the exceptants themselves will be greatly benefited in the near future. We find that the conditions prescribed by law have been complied with, and believe that it is expedient to grant the prayer of the applicants. We therefore dismiss the exceptions and direct that a formal decree of incorporation according to the prayer of the petitioners be prepared and presented for our consideration.

Paxtang, one of the busiest and most rapidly growing towns in this vicinity, now boasts of 300 or more population—and additional dwellings are now in

Movie Director Finds Harrisburg Parks Adopted For Production of Photoplays

duction of Photoplays

If you happen to walk into the Colonial Theater some day before long and sec on the moving picture screen a "thriller" in which the scenes, if not the incidents seem familiar to you—in fact if you see your own front porch standing out boldly on the sheet—don't have a fainting spell, because the Colonial is about to go into the film manufacturing business, and make some of their comedies and dramas right here at home.

A. E. Denman, who will be director of the new organization, is in Harrisburg. He spent yesterday here looking over the natural advantages that the town possesses for photoplays, and expressed much pleasure over Harrisburg's beauty. The River Front, the parks, the residence section, all appealed to him greatly, and he com-

the 1904 front potent states that the specific question at issue is the request of James C. an extent as to be a permanent nuisance.

The porches in question, it appears, were erected when the houses were built prior to 1904. In 1904 the city adopted an ordinance prohibiting the construction of porches beyond the house line.

The question arising over the opening of Briggs street to a sixty-foot width, from Second to Front streets, will not be taken up with the residents of the neighborhood and the Harrisburg Silk Mill Company until Tuesday, June 30, because of the absence of Mayor Royal.

of the neighborhood and the Harrisburg Silk Mill Company until Tuesday, June 30, because of the absence of Mayor Royal.

Mayor Royal, who is now attending the Williams College commencement exercises, will not return until the end of the week and the presidential chair to-morrow will be filled by Commissioner of Finance and Accounts W. L. Gorgas. For this reason it is probable that no action will be taken on the appointment of a policeman to succeed Clifford A. Palmer. Herman-Kautz and John Benner are talked- of as candidates, aithough it is said that Commissioners Synch, Bowman and Taylor are still divided on the question on the 2to 1 ratio—Bowman and Lynch holding out for Kautz. Commissioners Gorgas and Royal, it is understood, are also opposed to the selection of Kautz.

New Schoolhouse Likely
The school, street lighting, and new street platting questions are the absorbing ones just now. Some thirty-five or more of Paxtang's youth attend school there and it is likely that for the time being the question of a new schoolhouse will not be a troublesome one. An income of approximately \$2,500 will be netted for school purposes and it is quite probable that the city's schools will serve for awhile by payment of the necessary tuition fees.

The street lighting problem will be

The street lighting problem will be taken up in the near future with the Harrisburg Light and Power Company with a view to eventually lighting the streets of Paxtang borough with service from this city.

In discussing the reasons for granting the prayer of the petitioners the court says among other things:

"The village of Paxtang has increased rapidly in the last three years and the growth apparently continues. The city is being crowded and many citizens desire to get into a locality where they can have more ground about them and be more comfortably situated than in the crowded city. The residents of the village are greatly in need of better streets, and while the lot owners in the village have been paying their road taxes to the township, the township has not expended any money upon the streets of the village, because they have been laid out as public highways. The residents of the village also desire that their streets be lighted and they are unable to do this without the creation of a corporation. They also need police and fire protection. They are located near Paxtang Park and large numbers of people go back and forth between the park and the city, at times creating disorder and disturbance which the residents of the village are unable to control by action of any officer."
