### SUPERFLUOUS HAIR GROWTHS NO LONGER NECESSARY

The liquid hair remover, El Rado, is absolutely infallible in its effect, and is positively harmless. This is proved conclusively by the fact that many physicians use the ingredients in El Rado for exactly the same purpose—hair removing. El Rado acts instantly by dissolving the hair. A few drops, a simple application, and any growth vanishes; you see only the skin, smoother and even whiter than before, because of the soothing, anti-septic ingredients in the preparation.

While medical science knows of no chemical agent which will eradicate hair permanently without serious injury, El Rado will remove the hair for a very long time, and in so absolutely safe, simple and thorough a manner, that as a remedy and aid to good looks it has no equal. It is there a beauty preparation in the world that can improve one's appearance more than the successful removal of an unsightly hair growth!

Thousands of women are using this remarkable preparation—women old and young, in every station of life. El Rado is now a standard toilet article, and women use it as frankly as they use soap and face cream. You need have no more hesitation, therefore, in calling for it at your druggist's than in asking for any other toilet preparation.

### Steel Industry Feels Resumption of Business

Special to The Telegraph  
Pittsburgh, June 23.—One of the strongest indications of a resumption of business in the steel industry was had yesterday when several big plans and tinplate mills in the Allegheny Valley announced an increase in the number of working hours. At the big plant of the Allegheny Steel Company, located at Brackenridge, it was announced that department No. 1, which has been working but part time for a considerable period, went on full schedule to-day. This will be the first full week the department has operated since last November.

The officials at the New Kensington plant announced that they expect the lower mills to run full time for the balance of the summer. They also stated that they expect the upper mills to be operating on full time within the next two weeks.

In the Sharon and Farrell districts both the Steel Corporation and the
