Business Office, 203.

Editorial Room 585. Job Dept. 203 SATURDAY EVENING, JUNE 27

A RIDICULOUS POSITION RESIDENT WILSON'S peevish denunciation of the businessmen's protest against further nagging by Congress has brought down upon him the criticism of most of the independent newspapers and influential leaders of the country. Many of the strong newspapers of the Democratic press have likewise suggested that he went beyond decent bounds in criticising those who had a right to object to his program in Con-

Calling a halt upon attacks on bust ness and the prosperity of the nation is neither unpatriotic nor unreason able. It is the right of the people under our form of government to petition Congress at any time and President Wilson cannot arrogate to himself the powers of a dictator or an allwise ruler. He is human like the rest of us and must expect criticism of his errors, especially as in this way only can the people bring him to a realization of what he is doing.

Manufactured sentiment would have President or Congress, but there can be no argument as to the importance of listening to and heeding the appeals of those who are in position to understand better than the adminis tration politicians what is involved in continuance of the hectoring of business through ill-digested and unwise legislation.

What the United States needs most is a rest from the bombardment of theoretical legislation and restrictive rulings tending to discourage business activity and expansion. There ought to be some limit to the legislative and prosperity invited.

men who get his ear as to the unwisdom of his course in charging and parkway along the river. "conspiracy" against the important interests of the country which have appealed to Washington for a respite from the constant assaults upon business of every class-big and little.

Surely business men have the same right to appeal to Congress with peti- the lake-like waters of the Susquetions and letters and telegrams as hanna. those thick and thin supporters of the splendidly as a vast grandstand for

setting for boat races, a canoe parade and all manner of aquatic sports.

It is not too soon to begin to plan for such a celebration.

String the Washington Administration takes the position that the President can do no wrong, just as accidental teaders like Palmer and McCormick in Pennsylvania insist that their sponser in the White House shall have the humbs are up of the Machines are going of the matter of the matter of the Machines are going of the matter thumbs are up or down.

There will be a bumper wheat crop There will be a bumper wheat crop in Pennsylvania, according to a statement of Secretary of Agriculture Critchfield, and there is also prospect of a large fruit crop. A kind Providence is certainly overruling for the welfare of the people the blunders and persistent blindness of the present dynastra the Washington.

celebrated person in the college of which he was a member." Yet the man of parts was buried in an obscure country charge at an annual salary of \$800, while the "blockhead" in the space of a few years accumulated for himself a large fortune and became one of the leading men of his

SATURDAY EVENING.

country. As it was then, so it is now. Human nature doesn't change much in a century or two. The law of compen sation has its own way of bringing about the equation that constitutes each human life, and at all events the scholar is often too much wedded to his books to take time to apply to practical things the knowledge he has so laboriously acquired. "The first shall be last, and the last shall be first," does not always apply, but quite frequently enough to make it the

The administration has gravely demanded an explanation of Huerta con-cerning the deaths of two Americans in Mexico. Some folks can be excruci-atingly funny without knowing it

ROAD REPAIRS

THE cost of finding out whether Auditor General Powell is right in withholding payment of automobile license funds for road epairing expenses is far greater than

nost people realize.

Road repairs that could have been made for \$2,000,000 this year will cost from \$4,000,000 to \$6,000,000 next year. In other words, the money that the State Highway Department ought o have at this time for highway maintenance will not do anything like the work next year that it would have covered had it been available this year. Nothing goes back so rapidly as a road once it begins to break. The highway that could be put in order at small cost this year will require a vastly larger expenditure next year. Indeed, it will be remarkable if 1915

no permanent influence upon the going from bad to worse. The borugh and township officials have no authority to make repairs and the State Highway Department cannot get the money the Legislature unquestionably meant it should have. The ondition is, indeed, unfortunate.

> It is no longer a reproach to speak of a man as a high flyer.

administrative program to the end an opportunity to do something vastly that confidence may be restored and greater and more imposing next year. Manifestly the President has been be made occasion for a joint observhearing from the more level-headed ance of the national holiday with a

POLITELY, but very firmly, the curb loiterer is to be jogged into action. To-night the police will

thought an impenetrable blockhead at school, but still maintained his reputation at the university; the other was the pride of his master, and the most the construction of the river dam.

In the building of the dam it has

been necessary to go to bed rock so that the breast might be firm and strong. Here and there, however, have been discovered deep pockets which required unusual engineering devices to overcome. This has made necessary increased expenditure, which will be provided for by the City Council in order that the work may not be inter-

Of course, it would have been pos sible to complete the work and create a deficiency account without action now but the wiser course has been pursued n making provision for the emergency at the present time and in the proper Public confidence is always retained by straightforward conduct of the public's affairs.

# **EVENING CHAT**

Young Harrisburg is no longer afraid of snakes. Just now the snake instead of being a cause for scamper ing is the object of hunts. Time was not so long ago that a well developed enterprising snake could keep boys away from any swimming place, and even prevent the enjoyment of a bullfrog sticking expedition. Now every place where snakes are known to fre quent is turned over a couple of times a day by boys in the first flush of vacation, and any snake within fifty feet who gets away is well entitled to the enjoyment of, bug-hunting on tanother day. Water snakes appear to be the particular prey of boys about the city, and there is hardly a tband that returns from rambling near the mountains or along the valleys of the Paxton, Yellow Breeches and Conodoguinet that does not come back with a serpent. The other night two boys tried to make the poor frightened reptiles that had fallen into their hands engage in a duet, and another boy offered an amateur gardener a well-rounded garter snake to clear bugs from his potato patch for a quarter. If there are any copperheads or rattlers close to Harrisburg they had better cover their tracks and hunt new apartments. a day by boys in the first flush of

Indeed, it will be remarkable if 1915 does not find the roads of Pennsyl-vania in worse condition than ever before. This, however, is due to no fault of State Highway Commissioner Bigelow. Firm in the belief that the automobile license fund of more than \$2.000,000 was at his disposal, Mr. Bigelow organized his forces and prepared to spend the money on the repair of those vast stretches of road that have been taken from the townships by the Legislature and turned over to the Highway Department as over to the Highway Department as apart of the State system. Then came the legal snarl that put all his plans apart of the State system. Then came the legal snarl that put all his plans apart of the State system. Then came the legal and engineers who should now be directing gangs of workmen are on furlough.

Meanwhile not a stroke of work is being done on the roads and they are going from bad to worse. The borry of the state system and the corridors of the State should now be going from bad to worse. The borry of the state system are on furlough.

Meanwhile not a stroke of work is being done on the roads and they are going from bad to worse. The borry of the state system are on furlough.

Meanwhile not a stroke of work is being done on the roads and they are going from bad to worse. The borry of the state system are on furlough the point of the case is a special to the state system. The organize and the state of the state system. Then came the legal snarl that put all his plans a warlous interesting flags of the state system. Then came the legal snarl that put all his plans a part of the State system. Then came the legal snarl that put all his plans a part of the State system. Then came the legal snarl that put all his plans a part of the State system. Then came the legal snarl that put all his plans a part of the State system. On one side he has the Democratic Occurrence of the bad state of mind just now. On the late of mind just now. On the late

Commerce has arranged what promises to be a very sensible and appropriate Fourth of July celebration for next week, but it has an opportunity to do something vastly greater and more imposing next year. The Fourth of July in 1915 ought to be made occasion for a joint observance of the national holiday with a dedication of the city's "front steps" and parkway along the river.

This improvement will have been completed long before that date and the dam also will have been finished. The whole river bank will be turned into a park, with broad, paved walk leading to a series of steps ending in the lake-like waters of the Susqueshanna. These steps would serve splendidly as a vast grandstand for departments have been more or less perturbed by the probing into their operations, and the idea in some of-fices was illustrated the other day

Some of the heads of the State departments are commencing to figure around about the manner in which they will ask appropriations from the next Legislature, and it is expected that the demand for the conduct of the State government will be considerably heavier than last year because of the extension of State work. The Department of Labor and Industry, the Public Service Commission, moving picture censors and other branches the conductors. action. To-night the police will hand out cards to those who congregate on the curbs downtown to move on or be arrested.

We suppose there will be a few who will "stand on their rights" and make trouble for the policemen. But the law-abiding persons will realize that the order is just and proper. A few blameless persons may suffer slight embarrassment when the officer of the beat presents them with "move-ord" cords but in the main the order.

# POLITICAL POINT

Has Twenty Candidates For the Four Legislative Seats to Be Filled in Autumn

CAMPAIGN GETTING HOT

Republicans Will Meet in Pittsburgh in August- Morris Between Two Fires

Records of the May primary published at the State Capitol show that the Second Lancaster legislative district, which elects four members of the House, leads in the number of candidates who will go before the people at the November election havng an even score of men on the ticket. The Seventeenth Philadelphia district is next with eighteen, followed by the Eleventh Allegheny with sixteen and the Second Westmoreland with fifteen. Many other districts have ten or a dozen candidates. In some of these districts the same men are on two and three tickets, so that if every separate nomination was set out the number would actually be higher. In five districts there are but two candidates for the legislative seat. These districts are the Eleventh Philadelphia, Monroe, Montour, First and Fifth Luzerne, one of the two in the last district being on five tickets. There are three candidates for the seat in each of the following districts: Cameron, Clarion, Forest, Fulton, Juniata, Fifth Lackawanna, Fourth Luzerne, Second Montgomery, Pike, First and Second Schuylkill, Snyder, Sullivan, Union, Wayne and Fourth York.

In the senatorial list the Sixth district leads with six candidates, while the Twentieth district, part of Luzerne county, has two candidates.

Most of the congressional districts have five candidates, one man being on six tickets. There are twenty-four candidates for Congress-at-large.

There are six candidates for Governor and six for United States senator and five each for Lieutenant-Governor and Secretary of Internal Affairs.

Under the nonpartisan law there are but two candidates for comparisan law there are but two candidates for supermediant of the reference and Superior Courts. The Seventeenth Philadelphia district s next with eighteen, followed by the
