Divorce Is Granted to

Word has been received here of the granting by Supreme Court Justice Biegerich, New York, of a decree of nterlocutory divorce to Mrs. Dorothy The decree as issued provides that the order does not become effective until ninety days have elapsed, in which time the respondent may file a defense should he discover testimony to war-

and Scaly Skin

It is simply great to use S. S. S. for the blood and get a fine, new, healthy skin, no more salt rheum, itching, scales, eczema, tetter nor any other skin affliction. What a world of satisfaction! Perhaps you have greased and painted for years with mere temporary relief.

The trouble is in your blood and merely appears on the surface because the skin is a natural outlet. In time the tiny nerve threads in the skin lose their energy, the tissue cells break down and nature must have help. Now, the skin is but a network of tiny blood vessels, nerves and a modified form of mucous membrane in which blood impurities are prepared for elimination.

And it is only by supplying skin texture with new and purified blood that the constant outpouring of impurities is checked.

Get a bottle of S. S. s. today of any

the constant outpouring of impurities is checked.

Get a bottle of S. S. S. today of any druggist. Use this splendid, purely vegetable blood cleanser and get rid of all skin troubles.

Avoid substitutes. Don't accept them. Write The Swift Specific Co., 109 Swift Bldg., Atlanta, Ga: for their wonderful book on skin diseases.

THE DECIDING VOICE

In a business men's club in a western town there sprang up two factions, one which criticized the steward because he did not provide the members with good meals and one which defended him hotly.

The dispute got flercer and flercer. Half the club wanted to fire the steward at once. The other half said he was efficient.

Then, without warning, the steward himself decided the momentous question.

One day at lunch time a member of the club asked a waiter:
"Where's the steward?"
"He ain't here," replied the waiter.
"He said he was going down the street to get something good to eat."—The Popular Magazine.

SAFE AND SANE AT DILLSBURG

Special to The Telegraph

Dillsburg, Pa., June 29.—Dillsburg will again have a quiet, safe and sane Fourth of July. Orders have been issued forbidding not only the shooting of any freerackers or setting off fireworks of any kind, but also the sale of such goods within the borough. All of the business places wil be closed on that day.

ALWAYS GETTING HURT

For the seventy-fifth time, Garfield ror the seventy-fitth time, Garfield Gibbons, of 104 Nagle street, applied Saturday night at the Harrisburg hospital for treatment. Garfield had three fingers burned at the Central Iron and Steel Works Saturday. Within the past twenty-two years Gibbons made his seventy-five trips.

Summer-Spoiled Skin

Removed by Absorption

As undue summer exposure usually leaves an undesirable surface of tan, dust or grease, often freckles, too, it is more sensible to remove such surface than to hide it with cosmetics. There's nothing better for this than ordinary mercolized wax, which actually absorbs an unwholesome complexion. The thin layer of surface skin is itself absorbed, gently, gradually, so there's no inconvenience, no detention indoors. Spread the wax lightly over the entire face at bedtime and take it off in the morning with warm water. If you will get one ounce of mercolized wax at the drugstore, use for a week or so, your complexion will be a morning with warm water. If you will start at Paxtang on the evening in the warm of surface shin is wholly in the musical line called before the content of the park is the park and surface in a solution of powdered saxoilite, 1 oz., dissolved in ½ pt. witch hazel. Used daily for awhile this will be found wonderfully effective.

Second Oldest Fire Company Has Had Memorable Career

During State Convention Organization Will Entertain Fifty Visiting Bodies

President of the Hope Fire Company

This is the second of a series risburg Telegraph each Monday night on the history of Harris burg fire companies, which are

Hope company had its quarters in Front street near the site of the present North street pumping station. The first officers of the Hope company were: Thomas Walker, president; John M. Foster, vice-president, and Alexander Graydon, secretary, William McCoy, a retired Pennsylvania Railroad machinist, who resides in Forster street, is the oldest living member of the Hope company in Harrisburg. There are many veteran members still living, but none have been identified with the Hope company as long as Mr. McCoy, Jacob House is another veteran member.

The First Engine The First Engine

Hope company had its quarters in

The First Engine

The first engine this company had was the "Pat Lyon," made in Philadelphia at a cost of \$1,200. This engine threw two hogsheads of water per ninute. The company was reinforced under the direction of the Town Council in January, 1853. A second-class engine was purchased at a cost of \$1,300. The company first used a small frame structure for its house, but in 1855 a two-story brick house was erected. The bricklayers, carpenters, painters and plasterers belonging to the company worked gratuitously, doing service far into the night by the light of their fire lanterns.

The Hope company has made many trips and not only won honors in parades but from every city they visited the Hope members brought home numerous trophies. On its last trip the Hope company was away a week and stopped over in a number of New York cities. Many of the companies wisited will come to Harrisburg next October.

Win Silver Carriage

burg fire companies, which are now planning to entertain the annual State convention delegates in October. Companies will be discussed in their numerical order.]

Celebrating their one hundredth anniversary was one of the big events this year in the history of the Hope Steam Fire Engine Company, No. 2. "The Hivers," as they are also called, were organized January 6, 1814. Since that time No. 2 company has been prominent in Harrisburg's fire department.

As was the case with other early fire companies, the Hope records are not all intact. However, there is enough data to show that the second company organized in this city has had a memorable career. This company is still doing things along original plans and during the celebration next October will have fifty visiting fire companies as its guests.

The Hope company is located in North Second street near North. Its first house, according to records, was in Front street near Market. Later the

West Virginia Will Go Dry Tomorrow Night

Special to The Telegraph Charleston, W. Va., June 29.—State-wide prohibition of the liquor business

amounting to more than \$200,000 were received during the last ten days by the Blaw Steel Construction Company, of Pittsburgh.

All this steel will be fabricated in the company's shops at Hoboken, near this city, assuring continued employment throughout the summer for the concern's workmen. The steel is largely for structural work in the East. Most of the apparatus will be used in the construction of the Montreal acqueduct; the improvement of the Haliax harbor; the Welland Canal, New York subways and the Passaic, N. J., Valley system.

the latest ngures of the people of West Virginia accepted the people of West Virginia accepted the dry proposition was relatively the largest ever given by any State. It was approximately two to one for State-wide suppression of the liquor business. It was a surprise even to business. It was a surprise even to the prohibition forces, who were in-debted largely to the determined stand which many of the large employers took in favor of their cause. The State has a population of 1,221,119 by the census of 1910.

TOO MUCH TANGO

CAUSES NEURALGIA Violent neuralgia of the head genlack sufficient sleep, fresh air and red

lack sufficient sleep, fresh air and red blood.

With the prevalent craze for dancing at all times and places it is becoming noticeable that women whose blood is thin—anaemic—become subject to neuralgic pains when they dance too much and rob themselves of sleep and open-air exercise.

The woman who makes great demands on her strength, either by overworking or overdancing, must keep her blood in condition or suffer. The pain of neuralgia is simply a sign adopted by nature to show that the nervous system is being starved because the blood no longer brings it what if needs. The one great cause of neuralgia is debility with anaemia or bloodlessness.

Dr. Williams' Pink Pills are a tonic for the blood and nerves. They begin at once to enrich the blood and enable it to furnish the nerves with the elements they need to restore them to health. A booklet on the home treatment of nervous disorders that will enable you to help yourself will be sent free on request by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist can supply you with Dr. Williams' Pink Pills.—Advertisement.

Lost Nippur Tablet Discovered at Penn

Special to The Telegraph

Philadelphia, June 29.—The missing alf of the Babylonian clay tablet, hair of the Babylonian clay tablet, taken from the Temple of Nippur, matching perfectly the fragment from which Dr. Stephen Langdon, professor of Assyriology in Jesus College, Oxford, England, gained a new version of the Fall of Man and a new story of Noah and the Flood, has been found in the University of Pennsylvania Museum.

in the University of Pennsylvania Museum.

Such is the announcement, of great interest to archaelogists and to the world in general, made yesterday by Museum officials. Cablegrams from London last week told of Dr. Langdon's translations from the Sumerlan script, but said he had been handicapped in getting the full story because he had only half the tablet.

It develops that Doctor Langdon wrote to the University of Pennsylvania authorities last week asking them to search in the Museum for the missing half tablet. Now comes the announcement that the missing fragment is here; intact; clearly legible to a Sumerian scholar; that it corresponds exactly with the portion of stone upon which Doctor Langdon worked, and that it is an authentic find. It was found on Saturday by Curator Gordon, of the University Museum.

FIRST AID TO THE JOB SEEKER

FIRST AID TO THE JOB SEEKER

He had a keen eye, and, from the neck up, he looked like a brilliant, successful young man. A survey of him from his chin down disclosed the fact that he wore a shiny evening suit a size too small for him, that he had a telltale sinking-in somewhere in the immediate vicinity of his wishbone, and that the tops of his shoes were in far better condition than the soles. Altogether he was on his uppers—a fact which he was confiding to his friends in the hotel lobby.

After a while there appeared in the distance the picture of unlimited wealth, unsullied success, and uninterrupted prosperity. Instead of a sinking-in at the wishbone he exhibited a Dutch-window effect. His clothes fitted him to perfection. Evidently he had come out a victor in every battle he had fought against adversity.

As soon as he appeared the young ama in the small evening clothes was electrified into new life.

"Excuse me." he said to his friend. "That old duffer is from Wisconsin, and he wants to get an ambassadorship. I'm helping him to get it."

All of which is another indication that strangers looking for honors in Washington will pay large sums of money to any needy person who claims to have influence with Senator Jones, who has more influence than anybody else with the President.

It's a fine old graft.—The Popular Magazine.

SCHOOL PRINCIPAL CHOSEN
Greencastle, Pa., June 29. — At a special meeting of the Greencastle school board, W. G. Briner, of Carlisle, was elected principal to succeed Professor C. H. Sleichter, B. S. Whitmore and Miss Margaret Fletcher were re-elected assistant principals.
