Adeline: The reason for that dryness of hair after your shampoo is because that kind of soap irritates the scalp's tissues and makes them oversensitive. Canthrox will correct this, for it is a time to blood-vessels and scalp-tissues that the danger is entirely eliminated. To prepare your shampoo, dissolve a teaspoonful of canthrox in a cup of hot water, then pour it slowly on the head as you rub briskly. This dissolves every trace of dust, dandruff and excess oil .g.nd after rinsing, the hair will dry quickly and evenly.

This simple lotion is soothing and healing and imparts a velvety smoothness and natural loveliness to the complexion not possible with powder and rouge.
