

MOTHER OF SCHOOL GIRL

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Plover, Iowa.—"From a small child my 18 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any."

Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."—Mrs. MARTIN HELVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Switzerland in America

Glacier National Park

Glacier National Park is in Northwestern Montana. It is the most talked about region in the country to-day. It seems to be the one place most desired by Summer Tourists who delight in the outdoor life.

It's a curious thing how one can be induced to visit Switzerland, beautiful as it is, before exploring the wonders of Glacier National Park, and particularly in this so-called luxurious train the "Oriental Limited" takes one through from Chicago to the Glacier Park without change.

Within the comfortable quarters are to be had at Glacier Park Hotel and elsewhere, and the Glaciers, the lofty mountains, the crystal lakes, the forests filled with gamey trout, the atmosphere of bigness ruling everywhere, are wonders never to be forgotten.

Those in charge of Glacier Park have seen to it that the cost of visiting and living there is not excessive, and I would like to send you some of our illustrated booklets which tell you all about it, and about the cost of going there and seeing all there is to see. If you will send me your address, I will gladly send you copies free of charge, and answer any questions about the Park that you may wish to ask. Wm. Austin, General Agent Passenger Dept., C. & Q. R. Co., 836 Chestnut St., Philadelphia.

Notice

Coal prices have advanced, but it is still everybody's privilege to cut down next winter's fuel bill.

Kelley's Broken, Egg, Stove and Nut sizes were 50c a ton cheaper during April, May and June. Instead of a full 50c advance at one time, an increase of only 30c came with July, and the other 20c will not be added until September 1.

PARCEL POST WAGON DELIVERY DELAYED

Harrisburg Office Must Get Along Without Needed Equipment During Summer

The parcel post business in Harrisburg during the summer will have to get along without the four new wagons that Postmaster Sites had ordered, as Washington has not yet awarded the contracts. Several bids have been received and forwarded to the department, but although the wagons were expected to be on duty by July first the department has not yet given evidence that it has acted on the matter. The award is expected to be made almost any day.

The new order of the Post Office Department in regard to window envelopes went into effect yesterday at the local post office, as did also an order relating to money orders.

The "window" envelope order requires that this style of envelope having a transparent panel in front, through which the address on the inclosure is disclosed, is mailable only under certain conditions. The window must parallel the length of the envelope and allow space for postmarking and changes of address.

Among the amendments to the postal money order regulations in effect July 1 is a requirement that money orders shall be drawn from the information contained in the remitter's applications on a designated money order form; after that only at an office which is not a money order office. The amendments further provide that money orders may be drawn at any post office within thirty days from issue; after that only at the designated office.

The new one-cent domestic postal cards issued are designated as No. 8, to replace the No. 4 card.

The size of the No. 8 card is 3 by 5 inches, the same as the present No. 4 card. The paper is cream in color and is printed in green ink. The subject of the stamp is a portrait of Thomas Jefferson looking to the left. The background of the portrait is open and is surrounded with a circular border bearing in capital letters the words "U. S. POSTAL CARD, ONE CENT." This border rests upon a base containing a curved ribbon in which appears the name "Jefferson," with the numeral "1" with an ellipse on end, on either side. To the left of the stamp is a horizontal line of gothic capitals is the inscription, "This side of card for address" within a frame of plain lines having concave corners.

PAXTANG PARK

The fireworks display at Paxtang Park to-morrow evening, looks like a regular old-fashioned celebration of the night before the Fourth. Park employees are busy getting the frames for the big sea pieces in position and pyrotechnic man is getting the explosives all ready for the big show. Manager Davis' special hobby is fireworks, and he has spared no expense in his effort to make to-morrow night's display a success. Some of the specialties of new designs made especially for the Fourth, and different from anything ever seen at the park before. The exhibition will start promptly at 7:45 and will last until 11:00 p. m.

The performance at the theater will not start until the fireworks are all over, giving everyone who wishes a chance to see both the fireworks and the vaudeville show.

The bill for the park theater this week is an excellent one. Evans and Anderson, in a comedy sketch entitled "On the Rocks," are the feature act. This sketch tells a pleasing story replete with good comedy and is remarkably well acted. The other act is a "rube" comedy stunt, some of which of the ordinary that has made a name for itself in the park. Other acts worthy of special mention are the singer, The acrobatic comedy, The Musical Crocker Shop, and Jim Glidew, teller of humorous stories.—Advertisement.

COLONIAL BILL INCLUDES LOCAL MOVIE

Along with the splendid new bill of vaudeville to be introduced at the Colonial to-day, for the remainder of the week, Wilmer & Vincent are showing the first moving picture ever acted and made in Harrisburg. While there have been moving pictures shown here before of local events, this is the first time that a connected story of fiction has been acted out in front of the camera by local people and shown on a local screen. There are many pleasing scenes in the film, some of which show little points that a motion picture has to bear in mind when acting in front of the camera. More than fifty Harrisburg residents are shown in this picture.

MARKET TOMORROW

Owing to the fact that Saturday this week falls on the Fourth of July, and in accordance with the general custom of suspending business on that date, both morning and evening markets at the Verbeke street market house at Third and Verbeke streets will be held on Friday, July 3. Morning market will be held as usual from 4 to 11 a. m. and the recently inaugurated evening market from 4 to 10 p. m.

Every Dog Has His Day, But It's an Ill Wind Blows Nobody Good

Dogs without pedigree, home or license will have a lease of life this year because of the new commission form of government. Under the new commission act even a dogcatcher must be appointed by Council. No appointment was made yesterday and for the first time in five years Harrisburg did not have a dogcatcher on the streets on July 1. Until Council acts no preparations will be made at the pound for the care and execution of dogs. It is understood that the pound, which is located near Wildwood Park, is to be removed and an electrical device procured for killing untrained dogs. Council may take up the dogcatcher proposition next week.

A member of the family happened to be near him at the time. He had suffered a stroke of paralysis some time ago. He is survived by his widow and several children.

TO WASH A GREASY BOTTLE

To wash a bottle or a glass that has contained oil, use very hot coffee grounds. If the glass be badly encrusted, wash it with a mixture of bichromate of potash and sulphuric acid in equal parts, being careful not to get a drop of this upon the fingers. It is a powerful caustic. Then wash in several waters.
