Columbia Council Refuses Permission to Extend Wires

Columbia, Pa., July 9.—Borough council last night by a vote of four to three, killed the amended ordinance granting to the Edison Electric Company the privilege to extend high tension wires on their poles here to connect with any outside towns, or to extend said wires beyond the borough limits. Only seven of the nine members attended the meeting, two being slil, and as it required a two-thirds vote to amend an ordinance, the latter was defeated in the final vote. There is a difference of opinion among the citizens and a canvass of merchants and property owners in the business section disclosed that 75 per cent. opposed the granting of the privilege without compensation. The question had been before council for several months. Special to The Telegraph

WRONG BREAKFAST

Change Gave Rugged Health. Many persons think that for strength, they must begin the day with a breakfast of meat and other heavy foods. This is a mistake as anyone can easily discover for himself.

eater but finally indigestion caused me such distress, I became afraid to eat anything.

"My wife suggested a trial of Grape-Nuts and as I had to eat something or starve, I concluded to take her advice. She fixed me up a dish and I remarked at the time that the quality was all right, but the quantity was all right, but the quantity was too small—I wanted a saucerful.

"But she said a small amount of Grape-Nuts went a long way and that I must eat it according to directions. So I started in with Grape-Nuts and cream, 2 soft boiled eggs and some crisp toast for breakfast.

"I cut out meats and a lot of other stuff I had been used to eating all my life and was gratified to see that I was getting better right along. I concluded I had struck the right thing and stuck to it. I had not only been eating improper food, but too much.

"I was working at the carpenter's trade at that time and thought that unless I had a hearty breakfast with plenty of meat, I would play out before dinner. But after a few days of my "new breakfast" I found I could do more work, felt better in every way, and now I am not bothered with indigestion."

No toilet table is complete without a small package of delatone, for with it hair or fuzz can be quickly banished from the skin. To remove hairs you merely mix into a paste enough of the powder and water to cover the objectionable hairs. This should be left on the skin about 2 minutes, then rubbed off and the skin washed, when it will be found free from hair or blemish. Be sure you get genuine delatone.
