How to Beautify the Hair

A Simple and Inexpensive Home Method The hair is like a flower—a little care and proper nourishment does wonders. Just as a plant without air and water withers and dies, so will the hair go if not given proper nourishment. The scalp must be perfectly healthy and free from dandruff, as the scalp is to the hair what good soil is to plants and flowers. If your hair is not pretty; if it is losing its color, too dry, matted, falling out, or if the scalp itches and burns, you can overcome all of these conditions by using Parisian Sage, which supplies every hair need. It soaks right in to the hair roots, stimulating them and furnishing the nourishment that is needed for the hair to grow not only long and heavy, but fluffy, soft, lustrous and gloriously radiant. You can get a bottle of this inexpensive, yet delightful and helpful hair tonic from H. C. Kennedy or at drug and toilet counters everywhere. Improvement begins with the very first application. Besides stopping the scalp irritation it removes every bit of dandruff. The use of this unequalled hair tonic will surely give you a new life and beauty.—Advertisement.
