Fighting Disease Germs

There is a popular idea that most sickness is caused by a germ of the disease finding entrance to our bodies through the food we eat, the water or milk we drink or the air we breathe. This is true as far as it goes, but it is easier to keep up this resistance by taking Dr. Williams' Pink Pills, eating proper food, avoiding articles of food that do not agree with us and getting plenty of fresh air day and night, than it is to cure disease after it gets a foothold. Keep up the resistance of your body to disease by these tonic pills, which you can get at any drug store, and you will avoid much sickness. Two booklets, "Building Up the Blood" and "What to Eat and How to Eat," will be sent free by the Dr. Williams' Medicine Co., Schenectady, N. Y.—Advertisement.
