His election to the governorship is as certain as anything can be. The tects, by men who really shouldn't be tion. figures lie are as silly as they are

An analysis of the Brumbaugh vote was published by the Telegraph some weeks ago. Dr. Brumbaugh carried every county in the State against his three Republican opponents, Cauffiel, Ritter and Wood. He outran McCormick in the primaries more than 2 to 1, Ryan nearly 3 to 1, Lewis more than 8 to 1, and Brumm more than 13 to 1. Senator Penrose lost thirteen countles to J. Benjamin Dimmick, his single opponent, while Dr. Brumbaugh, with three opponents, carried every county that Dimmick carried. Brumbaugh had 6,248 votes in Lackawanna, Dimmick's home county, while Penrose polled 3,055 there.

In the las gubernatorial campaign 995,448 votes were cast, of which Tener received 415,614. This year there was a Republican enrollment of more than 600,000. About 300,000 of that num-

If only convention were half so sane! Then instead of being hot and sticky beneath useless coats, not only the lucky patrolmen, but every one of us could walk out Market street of a Sunday afternoon, letting the breezes hit us right on the shirt fronts. Coats in summertime are never worn because men want to wear them, but simply because style so decrees. The voting element of this fair city poonpoohs woman for her fear of offending fashion when they really ought to be poon-poohing themselves. Women may wear slit skirts and peekaboos, but, after all, aren't these things saner, healthlier and worlds more comfortable than stiff collars, coats and hats able than stiff collars, coats and hats oody or the hair?

So, again we say, let the city police force give thanks!

On the face of it, the demand doesn't seem illogical.
