Companion Is Held

Joseph Diddy, companion of Robinson, was arrested at the time for the murder charged with being an accomplice. He is being held to await separate trial.

Desperate Criminal

The police had looked upon Robinson as one of the most desperate criminals with whom they had to do in years. Thirty years of age he was a man of unusual mental attainments and the police feared his resources that they had planned to hold him at night in the court building to avoid the daily trips to and from the jail during the trial.

Planned Suicide

Letters found in Robinson's effects, and dated July 18, indicate that he contemplated suicide before his trial had begun. In a pathetic and repentant note to his mother and wife he said:

"To my dear mother and to my wife Dora Alice: The loving sweetheart of my boyhood, the only woman I ever loved and who stuck to me through all the shame into which I plunged here I bid a last fond goodbye, and if there is a God Almighty and another world I pray that I may meet you there. THE GERMS IN MILK

Living bodies both great and small, are usually found in a definite place. The bacteria found in milk are indeed a mixed collection. The fact that certain organisms are frequently found in milk does not necessarily mean that they originate in the udder, but rather direct the search toward the focus of infection from which they find their way into the secretion of the mammary gland.

A DIPLOMATIC SUGGESTION

SAM AND TOM—THEY BET

Thomas J. Pence, who ranks among the best of the budding political prophets in the ranks of the triumphant Democracy, has as his leading diversion the laying of bets on horse races.
