## Some Hope Remains of **Averting War in Europe Involving Many Nations**

Feeling in Powers Is Becoming Acute and Authorities Declare They May Not Be Able to Prevent Clash; Russia Prepares to Meet Austria in Battle; Other Countries Ready For War but Hope For Peace

London, July 27.—Glimmers of hope flickered in the darkened skies of European politics to-day and the wish was general that the efforts of the great European powers to avert a clash of arms which might involve many nations would be successful.

While all the powers were preparing for possible eventualities, their statesmen, with Sir Edward Grey, the British foreign secretary, at their head, were endeavoring to bring together the governments at issue with a view to mediation.

At the Servian legation in London the view was held that some improvement had taken place in the situation and this was attributed to the influence exercised by Russia. Alex Georgevitch, the first secretary, said:

"We have compiled with everything that does not impair our sovereign rights. We hope that Austria-Hungary, in the interests of peace, will recognize that consideration is due to an independent state and so avert war. If, however, Austria-Hungary wants war, she will have seen that we are pre-

pared to accept it in the interests of the dignity of our state."

The fact that Austrian ambassadors abroad were willing to discuss the controversial points with foreign governments, and especially Russia, led to

belief that an outlet for the deadlock would be found.

The stock markets of London and the European capitals still displayed a panicky feeling, although it was not as pronounced as on Saturday.

Germany Endeavors to Settle Threatened War By Associated Press

Summer Broken Up
The summer season at Carisbad and other resorts have been broken up by the Austrian mobilization. Hundreds of Americans have fled the court in ganicky haste and have come into Germany so as not to be caught in the whirlpool of war.

The military took possession of all the railroads in Austria yesterday and cancelled the regular schedules. The last passenger train from Carlsbad reached Berlin last night with a large number of American fugitives, who brought tales of hotels, bathhouses and shops closing, because the able-bodied proprietors and employes had been called to their colors. The cab service was demoralized by mobilization.

The government is making earnest efforts to localize the conflict and prevent the outbreak of a general European conflagration, for which the intervention of Russia will be the signal. Representations were made to at least two Turopean capitals to induce the powers to exert pressure on Russia to preserve neutrality but with what success remains to be seen.

# TO COMPLETE THE FRONT ST. SUBWAY

Curbing Has Been Placed on Ground Preparatory to Setting

Another Stretch of Walk on River Wall Completed—Steps at Hardscrabble

By September 1 the new Front street subway at Mulberry street will likely be paved; curbed, complete for service. While no date will be definitely fixed as yet by the contracting officials, the job is being pushed as rapidly as possible, and the chances are that if the weather doesn't interfere the first of the two underbridge ways will be in shape to permit the passage of traffic in another month.

The grading has been practically finished the entire width of the highway and the curbstones were unloaded on Saturday, so that before the end of this week the curbing will likely have been set. The placing of the concrete foundation and the surfacing with asphalt will follow in order.

As soon as the street is finished the restoration of the stretch of sloping park land north of the bridge will begin, as it will be a part of the contractor's job to put the lawns into the original shape. The construction of the sweer inlets has been practically completed and work in the great tunnel for the concrete sewer just south of the bridge is being pushed ahead.

About the Secretary's Lecturing Tours

Dallas, Texas, July 27.—With more than three-fourths of the total vote cast in the Democratic primarles election on Saturday returned here, it was regarded as certain that James E. Ferguson, of Temple, anti-prohibitions, is, had been nominated for Governor by a majority of perhaps 40,000 over Thomas S. Ball, of Houston, ex-Congressman, chosen by a Prohibition State convention to make the race. It also appeared certain that the demand for submission of a State-wide prohibition amendment to the State conditions in Texas are equivalent to election.

Returns also showed that no prohibitionist on the State ticket who had an anti-prohibitionist opponent had been nominated, except as to the two Congressmen-at-large, where the result is in doubt.

### **ALL IRELAND STIRRED** BY CLASH IN WHICH 4 PERSONS ARE KILLED

Crowds March Through Streets of **Dublin All Night Singing** Patriotic Songs

SERIOUS VIEW IS TAKEN

Nationalist Volunteers Refuse to Give Up Rifles and King's Soldiers Charge Them

By Associated Press

Dublin, Ireland, July 27.—The city of Dublin and the greater part of Catholic Ireland were to-day in a state of great excitement over yesterday's conflict between the regular troops of the British army and the Irish Nationalists, which resulted in the killing of four persons and the wounding of four persons and the wounding of many others, forty of whom were still in hospitals in a serious condition.

Day had dawned before the powers succeeded in dispersing the crowds marching through the streets singing patriotic songs and looking for soldiers of the Second Battalion of the King's Own Scottish Borderers on whom to inflict vengeance for the fatal events of yesterday when the Borderers were ordered out to prevent the landing of arms and ammunition for the Irish Nationalist volunteers. A crowd, finding that soldiers had been ordered to barracks, attacked the royal barracks where the Borderers are stationed and clamored for the soldiers to come out. Finally the mob kicked down a gate of the barracks and fired a couple of shots, upon which bugles were sounced. The police came on the scene and the crowd was dispersed.

Demand Reparation

Demand Keparation

The Nationalist leaders take the most serious view of the affair and will demand reparation from the government.

The landing of arms yesterday for the Nationalists was carried out in a more daring manner than similar feats achieved by the Ulster Unionist volunteers, as it was effected in daylight. The yacht from which the arms and ammunition were brought ashore already had landed 2,500 rifles and 125,000 rounds of ammunition at isolated points along the coast and these had been successfully distributed by motor cars among the Nationalist volunteers. Yesterday's attempt was undertaken to show that the Nationalist could do what the Ulster Unionists had done. At Howth 2,500 rifles and 160,000 rounds of ammunition were landed under the eyes of the police and telegraph wires having been cut to prevent communication with Dublin. Automobiles carried off 1,500 of the rifles and all the ammunition. A bedy of Nationalist volunteers then started for Dublin with 1,000 rifles, but no ammunition. The police sent to intercept the volunteers cheered the gun runners and everything seemed to be going smoothly until the battalion of Scottish Borderers came on

### Here Are Facts

One of the great advertising agencies in the country writes: One of the great advertising agencies in the country writes; "There is no doubt in our mind about the efficiency of newspaper advertising. The fact is demonstrated by the goodly proportion of our business which goes into the newspapers. Certainly there is no quicker way of getting results from advertising than through the newspaper advertising in any one locality is local in itself, it only takes an extension of that to bring about national advertising of the most effective kind. "Another extremely important side of newspaper advertising is the vigorous local backing it gives to a campaign in national publications. The best example we know of this is in the automobile business."
