LOCAL BISHOP WILL PRESIDE AT SESSIONS

General Conference of United Evangelical Church Will Take Up Important Issues

The General Conference of the United Evangelical Church in the United States will meet in Barrington, Ill., beginning the first week in October and continuing for ten days or two weeks. The sessions will be presided over by Bishop U. F. Swengel, of this city, who was the first pastor of Trinity United Evangelical congregation, York, and Bishop W. H. Foulke, of Naperville, Ill., formerly of Harrisburg.

The General Conference is the highest governing body of the United Evangelical Church and is made up of one representative for every fifteen clergymen in the annual conference of the denomination. The number of lay representatives is equal to the number of ministerial delegates from each annual conference.

One of the issues to be discussed and probably acted upon at the General Conference next October and possibly of most interest to residents in this city is the proposition of forming an organic union with the Evangelical association. Other propositions and matters pertaining to the general welfare of the United Evangelical denomination will be discussed and acted upon during the sessions.

The ministerial delegates from the Central Pennsylvania conference, of which the United Evangelical churches of this city and county are a part, are as follows:

The Rev. Messrs. J. A. Thompson, presiding elder of the Williamsport district; H. A. Benfer, presiding elder of the Center district, residing at Lewisburg; Union county; M. F. Fosselman, presiding elder of the York district; J. D. Shortiss, presiding elder of the Lewisburg district; J. A. Hollenbaugh, presiding elder of the Carlisle district; A. Stapleton, of Williamsport; E. Crumbling, of Lewisburg; Professor A. E. Gobbie, of Albright College; W. E. Detwiler, of Marysville, and W. B. Cox, of Berwick. The alternates are: The Rev. Messrs. J. C. Reese, of Lewistown; Dr. J. F. Dunlap, president of Albright College, Myerstown, Lebanon county; C. L. Sones, pastor of Grace United Evangelical Church, York; S. R. Remer, of Red Lion, and N. Young, of Berwick.

The lay delegates from the Central Pennsylvania conference are:

E. Hengst, of Trinity United Evangelical Church, York; E. S. Sontz, of Felton; H. A. Lackay, of Carlisle; H. M. Strabley; C. A. Shaffer, of Berwick; W. H. Musser, of Lewisburg; J. P. Pandel, of Lewistown; H. D. Krapp, of Shafter, of Lock Haven, and J. C. Newcomer, of Williamsport; John Detwiler, of Red Lion, has been chosen as first alternate.

RUN IN SUMMER BAD, SAYS RAUNICK

Health Officer Gives Pointers on Keeping Well During Hot Weather

Persons addicted to alcoholic drinks are more susceptible to heat prostration or sunstroke than the abstainer, Dr. J. M. J. Raunick, the city health officer, pointed out to-day.

Those who are in good health are not likely to be seriously affected by high temperatures or great humidity, he says, but if one is willing to reduce his bodily resistance by alcohol, overwork, fatigue or worry, heat prostration is to be expected.

Continuing, the health official says: "The best way to avoid these serious and often times fatal illnesses is to keep one's general health up to the normal standard by right living, and to adapt one's habits of living and mode of dress to the weather. Observation of the following principles of hot-weather hygiene will safeguard health and add very materially to comfort of mind and body:

"Avoid alcoholic drinks. Drink plenty of cool water to assist nature to eliminate heat from the body and to carry off the waste products, which are a common cause of headache and that tired feeling.

"Keep the skin clean, healthy and active by frequent bathing; this encourages free perspiration, which is one of nature's methods of ridding the body of excessive heat.

"Wear light, loose clothing; it is best to have thin, absorbent material next to the skin to assist evaporation. Avoid light-fitting garments, especially those which compress the neck and chest.

"Avoid heavy eating, especially of heat-producing foods, such as soups, fats and red meats, and of heavy foods which overtax the digestive organs. Substitute cereals, fruits and vegetables. It is very important to avoid constipation.

"Keep living and sleeping rooms well ventilated. During the heat of the day use the shades to keep out the heat rays, but do not cut off any breezes which may be coming your way or exclude the cool air of night or cooler parts of the day. Keep the air in circulation by the aid of fans whenever possible.

"Avoid exposure to the direct rays of the sun, so far as possible, especially during the hottest hours of the day. When exposure is necessary, make it as brief as possible or protect yourself with a suitable overhead covering.

"Avoid overwork, excessive fatigue, worry and brooding—all are unnecessary and injurious to health."

When Cold Weather Comes

You may think it a more seasonable time to talk about coal, but you can't buy it then as cheaply as you can this month or next. Kelley's Broken, Egg, Stove and Nut sizes are still 20c a ton cheaper than they will be September 1.

Will you have Kelley fill your bins now or wait until you have to pay full Winter rates? Which?

Telegraph Staff Man Breaks Into Magazine

In the latest issue of the Associated Sunday Magazines is an interesting short story by George Morganroth, a member of the Telegraph staff. The title is called "Meddling With the Militants," a most always timely story dealing with the whys and ways of the English suffragettes.

Six hours before a suffrage bill is to be presented in parliament, a final action a creepy, shivery, icy-grown, tower and a pretty young Englishwoman whose heart is torn between "Cupid and votes for women" are the time, the place and the girl. Of course there's a particular man in it—a husky young English nobleman, his party's "whip" in parliament. The suffragettes want his support for their bill, enlist the services of the young woman, she enlists all her resources—and, well, that's the story. Miss Hazel Roberts has effectively and amusingly illustrated the tale.

"Meddling With the Militants" is Mr. Morganroth's first short story effort to appear in print. He is a former Shamokin and Milton newspaperman, having held the city desk on the Shamokin News.

MINISTER IN HARVEST FIELDS

Special to The Telegraph

Sunbury, Pa., July 28.—Rather than see the crops of Charles Reinhart, one of the wealthiest and most influential members of his flock, go to waste, for lack of sufficient help, the Rev. Dr. J. M. Francis, of Zion Lutheran Church, Sunbury, went into the fields, and all last week tossed hay, helped with the wheat, and also milked the cows—by means of a patent milker. Sunday he came in "off the farm," and preached two sermons. The wages he received were turned over to the milk and ice fund of the church.

To Keep Skin White, Velvety, Wrinkle-Free

C. M. W. says: "I perspire so excessively that powder makes my face streaky these days and creams make it greasy and shiny. What can I do?" Try the treatment recommended to "Anise."

A. F. G. writes: "My skin seems so loose and wrinkly in hot weather. What will help it?" Use a wash lotion made by dissolving 1 oz. powdered saxolite in 1/2 pt. witch hazel. This is immediately effective in any wrinkled or flabby condition. Use daily for awhile and results will astonish you.

Anise: A simple way to keep your skin smooth, soft and white is to apply ordinary mercolized wax before retiring, washing it off in the morning. This keeps the face free from the particles of lifeless cuticle which constantly appear. The wax absorbs these worn-out particles, so the younger, fresher, healthier skin is always in view. An ounce of mercolized wax may be had at small cost at any drug store. Use like cold cream. —Aunt Sally in Woman's Realm.

Coal Is Cheapest and Best Now

To buy coal now is to buy it at the cheapest price for which it can be obtained during the year. And then you gain in quality, too, for the coal sent from the mines at this time of the year may be thoroughly screened before delivery, a difficult matter in cold weather when frost will cause the dirt to cling to the coal. So to buy Montgomery coal now is to buy the best quality of the best coal at the lowest price. Place your order.
