Giving Notice of a Reduction in Prices of the Largest and Finest Furniture Stock in America

In an August Sale

The six-acre furniture stock of the Wanamaker Store in Philadelphia is famous all over the country for its sound quality, its correct and tasteful design and its moderate prices.

It is equaled nowhere except in the Wanamaker New York Store.

It contains no cheap furniture whatever—but does contain an immense amount of good furniture at very low prices.

During August All of This Furniture Will be Reduced in Price

In some cases the reduction will be as little as 10 per cent; in others it will be as much as 50 per cent. In every case the saving will be actual—as real as money in the bank.

Besides the stocks on hand, we have brought in \$200,000 worth of furniture to sell at special prices.

The savings on these special purchases of furniture will amount to about 33 per cent; and they are made possible by our arranging to keep several manufacturing plants at work through the dull season, when otherwise they would shut down.

Three Days to Buy in Advance

To relieve the great pressure experienced formerly on opening days of our August Sales, we have designated next Wednesday, Thursday and Friday, July 29, 30 and 31, as "inspection" or "courtesy" days, on which furniture may be seen and selections made from it, though all transactions will date from August 3.

People Coming From a Distance

as more and more people do every year now to participate in the considerable savings of this Sale, can complete their purchases on any of these three inspection days or can wait until after the formal opening on August 3, if they prefer. The best choice, of course, will be to the first-comers.

Note: As to Your Home Stores

If there are stores in your home town that can supply you with furniture as good as the Wanamaker furniture and at prices as low as ours will be throughout the month of August, then it is only fair that you should make your purchases there. Our invitation to distant customers is intended only for those who believe that they can get better furniture in the Wanamaker Sale and at lower prices than elsewhere; and we intend that none such shall be disappointed.

If You Have a Trip to Make to the Seashore, Make It Now

and stop off in Philadelphia at least for a sight of what we are told is the largest and finest stock of furniture in America.

The low prices on such good furniture may be very surprising to you.

*With the exception of certain patented bookcases.

ARE WRINKLES CAUSED BY MODERN SOCIAL LIFE Often the papers and magazines have made the rather broad statement that modern social life is the only cause for wrinkles. Undoubtedly modern social life contributes some to the existence of wrinkles, but one can hardly say it is the cause. However, the wrinkles do come and old age has never made for attractiveness, so we use the best means to resist the tell-tale marks. A search for the very best in wrinkle eradicators has brought us to this formula for an economical vegetable jelly cream as the simplest wrinkle remover and skin stimulator. Its mask-like action protects the surface while it stimulates the blood vessels to perform their up-building work. Just get from your druggist an ounce of almozoin, put it into a fruit jar and add a half a pint of water. Before retiring apply rather thickly over wrinkled or flabby surface and allow it to dry. It will harden rapidly and you will note a slight tightening of the skin. In the morning remove with hot water and note the immediate effect which you will find lasting.—Advertisement.
