GREATEST EXPENSE COUNCILMEN'S PAY

Half-Dozen Principal Pennsylvania Third-Class Cities Show Commission Costs

MAYOR ROYAL DISCUSSES IT \$10,000 Yearly Item For Commissioners' Salaries Practically Biggest Budget Boost

Aside from the salaries of the city commissioners, the cost of conducting Pennsylvania's cities of the third class under the commission form of government has not been materially increased, according to figures recently compiled and statements by mayors of half a dozen of the more important municipalities.

Just how Harrisburg stands on this was explained by Mayor Royal as follows: It is too early to make any accurate estimate of the relative cost of the commission government and the former system, and I believe the former will prove the more expensive.

There is not much difference in the normal cost, that is, the fixed cost of the municipal machinery, in the way of salaries and the like, but when it comes to expenditures, that is another matter. I personally was opposed to the innovation, but I wish to see the commission form have a fair trial. My objection to it is that it lodges too much power in the hands of a few men, who, however honest, are human, and the temptation to use such power for political effect is great.

Other Viewpoints The mayors of Chester, Reading, Williamsport, Easton and Allentown are among the others who discussed the change of government. Here, in

brief, is the gist of the official comments: Williamsport -- Mayor Samuel Stabler to-day said: "I have no statistics that give a fair comparison of the cost of municipal government under commission rule with that of the old form, but the increase will be approximately \$10,000 a year. This is due almost entirely to the salaries paid councilmen."

Allentown--According to Mayor Rinn, the commission form of government is still in the making. Six months of this form of government has made little impression in Allentown except dissatisfaction. There is much comment to the effect that if the \$10,000 paid to the commissioners in salaries had been invested in street improvements Allentown would be nearly \$1,000,000 ahead in assessed valuation by the end of the year.

Chester--Mayor William Ward, Jr., said: "I do not find the present commission form of government more expensive than the old style, except in the additional salary items as fixed by the statute. Reading--After six months' trial in Reading the commission form of government has not been found to be more expensive than the old style. Mayor Stratton is away on his vacation, but a leading official, in discussing the matter, pointed to the annual salaries of \$12,000 to the commissioners as the only additional expense.

Easton--Mayor D. W. Nevin to-day said: "Commission government is necessarily more expensive than the old form, due to legislation requiring salaries to be paid to commissioners and other officers to meet the legislative demands."

Foster and his dog Mike are making a big hit at the Colonial Theater. Mike is a small creature, but apparently has a very large brain crowded into his small head. He does feats of mind-reading that are amazing. There are two other very excellent acts on the Colonial bill of the present week. A new show will be put on to-morrow for the remainder of the week, including another home made moving picture, entitled "The Coward." This picture was posed by about thirty High School graduates of this city and was the best piece of work so far done in the home-made movie line.

Build up your baby's strength

Give him the right food. More babies die as a result of the wrong food than from any other cause, and it is so unnecessary. When your milk fails and you find you can't nurse your baby, give him the food on which three generations of boys and girls have grown healthy and strong--

Nestlé's Food

In Nestlé's there is everything your baby needs to make his little body plump, his cheeks rosy and his eyes bright. Pure cows' milk is his basis--but cows' milk is changed and modified, and with baby needs added, that your little baby can digest it just as easily as mother's milk. Add cold water and boil, and you have a Food your baby will thrive on. Cows' milk alone will not do for your baby. It is dangerously full of germs which may carry disease to your baby. There are only eight clean dairies in a hundred, in this country. And, besides, cows' milk is too heavy and indigestible for your baby's delicate stomach. Nature made cows' milk for calves, not for your delicate little baby.

Let us send you a big box of Nestlé's--enough for twelve feedings--and our Book on the care of Babies. We will send you also our new "Better Babies" Chart.
