RAILROAD NEWS

AUTOMATIC SIGNALS NEAR COMPLETION

Pennsylvania Railroad Holds Record For Safety Equipment and Four Track Sections

Work is in progress on the last section of the Middle division, which will give a complete system of automatic signals throughout the entire Middle division. Five miles remain to be equipped near Lewistown. It is expected that the automatic system will be completed by September 1. When this work is finished the Pennsylvania Railroad will have more four-track sections and automatic signals than any railroad company in the United States and will have expended a total of \$6,000,000 in providing a safe railroad system. During the past three years the Pennsylvania Railroad Company has equipped 293 miles of its main lines with automatic signals. On September 1 the work of equipping the main line between Pittsburgh and New York City and Washington and Washington with automatic block signals will be completed. The signal system on the Pennsylvania Railroad lines east represents an estimated investment of \$18,000,000. The electro-mechanical interlocking switch and signal system in the New York station and on the electric line between Sunnyside Yard, Long Island, the station and Manhattan Transfer, N. J., costs \$1,750,000. It costs the Pennsylvania \$1,500,000 a year to keep its signals in order and a general force of 1,500 men is required to maintain the system. Record For Safety.—Line of the Pennsylvania Railroad carried 87,000,000 passengers in the six months without a loss of life from a train accident. There are 11,729 miles of line and 26,198 miles of track in the Pennsylvania system. More than 15,000 passengers were killed on these tracks every month, averaging 3,766 trains a day. Rule Against Dirty Water.—Superintendent N. W. Smith, of the Middle division of the Pennsylvania Railroad, to-day issued a general notice to all trainmen and engine crews, requiring them to carefully observe the rules regarding the throwing of dirty water from the smokestack when on sidings and at railroad stations.

RAILROAD NOTES

Harrisburg was well represented at Chambersburg to-day. Three special trains were run. The total number of tickets sold was in round figures, 1,800. Charles A. Parker, traveling passenger agent for the Missouri Pacific Railroad, and other railroad men in the West, was in Harrisburg to-day. A Sufficient Number of Classification "Tracks" is in title of an article in the current issue of the Railway Gazette, written by G. O. Sarvis, assistant trainmaster of the Philadelphia and Reading Railway. Superintendent W. H. Pierce, of the Brotherhood of Federated Railway Employees, addressed a meeting at White's Hall last night. Another meeting will be held Sunday night. President White will leave Saturday on a two weeks' trip east.

FOREIGN EXCHANGE UNSETTLED TODAY

Reading, Lehigh Valley and Others Yield Below Yesterday's Level; Bonds Weak

New York, July 30.—Selling became more precipitate in the second hour, the movement reflecting absolute demoralization. By midday a number of leading shares were down five to seven points and all of yesterday's low prices were either equalled or passed. The extreme delicacy of the financial situation abroad was made more evident here in the course of the day, when it was known that banks of France, Belgium and Netherlands had followed England's lead in advancing discounts. An exchange was even more unsettled, and exports of gold were increased until it amounted to \$3,600,000 by noon. Call money rose to 6 per cent. Among the thirty-odd stocks that yielded below yesterday's level, were: Reading, Lehigh Valley, Norfolk and Western, Steel and Amalgamated Copper. Bonds were weak.
