INDIAN STUDENTS TAKE EASTERN TRIP

Boys' and Girls From Carlisle More Than 2,000 Osteopaths Will School Visiting Atlantic City, New York and Boston

Special to The Telegraph
Carlisle, Pa., July 30.—A group of Indian boys and maidens from Carlisle Indian School, chaperoned by Lone Star, the Indian artist, and Angel DeCora, his wife, an authority on Indian art, left here on a sightseeing tour of eastern cities yesterday. The party includes Miss Ella Allen, who is related to some of the first families of the South.

The plans include visits to Philadelphia, Atlantic City, New York and a boat trip to Boston with possible side trips. A very modest sum has been set aside for their expenses and entertainment and the trip is taken solely for its educational value.

Practically all of the red-skinned students making the little eastern tour are very wealthy, their principal possessions being oil wells in Oklahoma.

Cat Barnsky is worth about \$1,500.—00. Cat is deaf. He has advanced rapidly in scholarship and is desirous of seeing America.

Beeley Derrisaw, another Indian youth, who could write a check for upward of one million dollars, likewise wants to travel.

Dainty little Atooka Opueka, a copper-colored maiden, has a bank account away out of proportion to her small body and she knows that she will have the time of her life, although the chaperonage conducted by the Carlisle officials is the strictest imaginable.

George Pike and several other Indian students are with the party.

Typhoid Warning Given Special to The Telegraph

Typhoid Warning Given to City Camping Parties

While fewer cases of typhoid fever are to-day being treated in the citr than ever before in the past ten years, this is the time of year, warning is soud, when the typhoid baccilus is bold, aggressive and vigilant.

Persons, therefore, who do not wish to entertain a company of the baccili in their systems should be cautious. Especially campers, who camp along streams and rivers in isolated places, should be careful about the quality of water they drink.

There are at present only three and one-half cases in town. One case is being treated privately. Two are at the hospital, where also a case suspected to be typhoid but not fully developed as such was brought in from Reedsville.

SURPRISE KITCHEN SHOWER

Special to The Telegroph

Mechanicsburg, Pa., July 30.—A kitchen shower was given Mr. and Mrs. Carroll Singiser, newlyweds, at the home of the former's parents, Mr. and Mrs. Harry Singiser, 426 South York street, on Tuesday evening by the members of the Willing Helpers Sunday school class of the Church of God, taught by Mrs. C. E. Rhinehart. The affair was planned as a surprise to Mr. and Mrs. Singiser, the former being a member of the class. Games and music afforded entertainment for the guests and refreshments were served later.

The American Garden of Eden---Colorado

The modern Adam and the modern

The modern Adam and the modern Eve have a Garden of Eden right here in America where the tired can gain a wonderful reward in new vigor and happiness. We call it "Estes Park" and it is in Colorado.

It is the land of wild flowers galore—massive glacters; gigantic mountains with cloud-piercing peaks; rushing streams; crystal lakes. It is the land of sunshine and glory.

You can follow your favorite pastime to your heart's content—play golf or tennis—ride, drive or motor, climb, fish and camp out.

There are high class hotels and many modest places at little cost, so the expense question should not deter you. It's a splendix spot to recupersate and prepare for future "business battles" or social obligations, and the achildren can enjoy themselves and benefit as much as the grown-ups.

May I place in your hands our folder on Estes Park—that contains many pletures, maps and full information on the hotels, boarding places, ranch houses with their costs? I also want to tell you about the best way to get there and about the low excursion fares.

DR. HARRY M. VASTINE

Attend 18th Annual Meeting in Philadelphia

Dr. Harry M. Vastine, of Harrisburg, will read a paper on the subject, "Technique-Correction of the Sacro-Iliac Lesions," at the eighteenth an nual meeting of the American Osteo-pathic convention in Philadelphia August 3 to 7.

all parts of the United States and many from other countries will at-

all parts of the United States and many from other countries will attend these sessions. The greatest international conclave of osteopathic physicians ever held is in prospect. Osteopathy is now 40 years old and numbers 7,000 practitioners.

The most spectacular feature of the coming convention will be a big deafness clinic held by Dr. James A. Edwards, of St. Louis, the famous discoverer of the new osteopathic cure of catarrhal deafness. He will demonstrate his new technique upon a number of patients who have been pronounced incurable by the classic methods of the specialists of the old school. 4 His method consists simply of "Inger surgery." It is an adaption of the famous bloodless surgery to the throat, and is all done with the finger inside the mouth, and without instruments. It is analogous to the renowned operation performed upon Lolita Armour.

Edwards found that the most common kind of deafness in America is that type caused by catarrh. This is the only kind which this treatment will cure. He discovered that in these cases the deafness was caused by adhesion of the little air tube connecting the throat and the ear and by impediment to the draining of this

by adhesion of the little air tube connecting the throat and the ear and by impediment to the draining of this tube. With the finger alone the trained osteopath is able in most cases to partly correct this condition so that some portion of the hearing is restored. He and his associates have treated several thousand cases and report cures and partial cures in about half of them. This does not mean that half of the deaf per ple can be helped, but that half of those who are deaf from this cause only.

Dr. Edwards will be assisted by Dr. D. Webb Granberry, member of the board of registration in medicine' in New Jersey.

D. Webb Granberry, member of the board of registration in medicine' in New Jersey.

Dr. Percy H. Woodall, of Birmingham, Ala., president of the association, will preside at the sessions.

Dr. Harry W. Forbes, president of the Los Angeles College of Osteopathy, will present an original contribution on disturbed circulation to the lower part of the spinal cord.

From the scientific point of view, one of the most vital things in the convention will be the report of the Research Institute, by Dr. John Deason, of Chicago, the director. Research institutions established in other schools of practice are founded and supported by contributions from philanthropists who are laymen, but this is the only one in the world founded and financed entirely from the private incomes of practitioners.

THE CALL OF THE WILD

I know a place where the fern is deep. And the giant fir waves high, And a rocky ledge hangs dark and steep.

And a laughing brook leaps by. And it's there to be with a soul that's free

From the street's discordant jar, With a blanket spread on a cedar bed And the voice of the world afar.

I know a pool in a leafy dell

That the wary trout love best, And a timid trail to the chaparral

That the wary trout love best,
And a timid trail to the chaparral
Where the red deer lie at rest.
A night-bird's call when the shadow
