Harrisburg School Sketches. BY J. HOWARD WEIT. No. 10.—The Teachers of 1874. An Odd Experiment in the Teaching of Music. Salary Forty Years Ago. A Tribute to the Teachers of 1874.

As already stated, the entire teaching force of the city of Harrisburg, in 1874, numbered 92, two of whom were music teachers, and two drawing teachers, and two classed as teachers at large who were expected to be ready at a moment's notice, to go into any school from the high to the primary grade and teach anything that was in the common school curriculum. The two teachers at large that year were Anna M. Hays and William M. Fahnestock. The latter has been identified with the city's education for many years, and has been a member of the Central high school faculty. There was also a substitute list numbering eleven. The teacher of ornamental drawing was Miss Margaret Whipple, a talented and amiable lady, who was cut down by death soon after. The teacher of mechanical drawing at this time was Mr. Tomlin, who was conducted a business place in Montgomery street. Mr. Behring was a man of considerable genius, and so successful as a teacher that the boys of the high school looked forward with genuine pleasure to the hours that he would be with them. His work was confined to the boys of the high and grammar schools. His few hours of instruction in the technical department were given in the Harrisburg school curriculum of 1874. What a contrast to the magnificent equipment of the Technical high school now, at the very spot where most of his labors were performed.

Will Soon Plan Dedication of Y. W. C. A. Building.

Following a tour of inspection of the new Young Women's Christian Association building, at Fourth and Walnut streets, by the building committee, plans will be formulated in the near future for its dedication. The awarding of furniture contracts and the selection of a physical director from a number of applicants will occupy the directors for the next several days. The building will probably be completed by the middle of September. The roof garden has been completed with a red tile floor and a stone balustrade. The building committee, consisting of Mrs. John W. Kelly, Miss Caroline Weiss, Miss Mary Jennings, Miss Ella M. Stitt and Mr. and Mrs. E. Z. Wallower, made a tour of inspection last week.

Yearly reports of business of the New York Life Insurance Company for this district, announced yesterday by Dick Oliver, secretary of the Board, indicate an increase of nearly half a million in face values of the policies issued. How to Gain Weight A Pound a Day.

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy flesh there! It should try eating a little Sargol with their meals for a while and note results. Sargol is a good, reliable, and safe. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and most any thin man or woman forty years ago did the same to eight pounds in the first fourteen days by following this simple direction. The best of all, the new flesh stays put. Sargol does not of itself make fat, but mixing with your food, it turns the fats, sugars and starches of what you have eaten into rich, ripe, fat-producing milk. All this is done in an easily assimilated form which the blood can readily accept. All this is in Sargol. Now it passes from your body as waste. But Sargol stops the waste and does it quickly and makes the fat-producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. George A. Gorgas and other leading druggists in Harrisburg and vicinity sell it in large boxes—forty tablets to a package—a guarantee of weight increase or money back.—Advertisement.

How You Can Remove Every Trace of Hair.

(Toilet Talks.) A stiff paste made with some powdered delatone and water and spread on a hairy surface about 2 minutes will, when removed, take every trace of hair with it. The skin should then be washed to free it from the remaining delatone. No harm can result from this treatment, but be sure it is delatone you get and you will not be disappointed.

Late War News.

Settlement Dealings on Bourse Are Suspended.

Berlin, July 30.—Settlement dealings on the Bourse were entirely suspended today and the brokers confined themselves to cash transactions. The most pessimistic rumors were in circulation, and many firms were in difficulties. The members of the bankers' association met and among those present were in favor of closing the Bourse, but as they were not unanimous the committee of Bourse resolved to keep the exchange open for cash trading. Exciting scenes were witnessed on the Produce Exchange, where wheat and rye were quoted from \$1.75 to \$2 per metric ton higher. The Imperial German bank still maintained its waiting attitude, but it is understood that it will follow London's example in increasing the rate. A Potsdam banker, Eugene Eiber, and his wife committed suicide in a Berlin hotel today because they had lost over \$62,000 since the beginning of the war crisis.

AS HAS BEEN ANTICIPATED.

London, July 30.—As has been anticipated, the Bank of England today raised its minimum rates of discount an entire point, making it 4 per cent. The step was taken as a protective measure in view of the chaotic financial conditions on the continent following the outbreak of war between Austria-Hungary and Serbia and the almost general advance of bank rates in continental centers. By discounting bills freely during the past few days, while ordinary sources for discounting were practically suspended and by arranging credit in connection with gold coming from New York when American exchange was so difficult to obtain, the Bank of England considerably relieved the financial world. Now, however, that a raid is being made on its gold supply by the continent of Europe, the Bank of England has found it necessary to take protective measures.

Gains New Complexion.

By Peeling Her Skin. "Keep still, sad heart and cease repining; behind the clouds is the sun still shining. I was formerly reminded of these lines when, after months of fretting over my ugly complexion, I found how easy it was to remove the cloudy, muddy skin and bring forth a bright, new complexion. One ounce of ordinary mercurized wax at my druggist's and used this like cold cream, and used this like cold cream, washing it off mornings, lo and behold! That old skin had all peeled off! My healthy young complexion gave me a complexion as pure, white and soft as a young girl's. I experienced no discomfort, the skin came off so gradually and gently. Several friends have been similarly benefited. I wish anyone whose skin is soiled, tanned, withered, blotchy, pimply or freckled, can acquire the loveliest complexion imaginable by using this remarkable treatment. Another treatment that brought more sunshine was one to remove wrinkles. A face bath made by dissolving 1 oz. powdered salolite in 500 cc. of water, with a little of every line. It's wonderful.—Julia Orff in The Queen.

"Keep Out", Auditors' Instructions to Public.

Auditing the county's books and accounts for 1913 is now a regular job. The auditors work every day from 9 to 4 with only an hour for luncheon and Saturday half-holidays. That the board will get down to business every day at the regular county office hours was decided upon at the opening of the board's sessions. Auditor Fred W. Huston offered a resolution fixing these hours and it was adopted. Another resolution that has been adopted is a measure to the effect that folks are barred from the meetings of the board. "That means all folks," observed Auditor Francis W. Riegle, "the reporters, too. Say that in the paper, too, will you?" (So here it is, Mr. Riegle.) Some fuss was kicked up about whether or not the auditors were to have a key to the office. They are occupying the private office of County Controller H. W. Gough and Mr. Gough contended that as it was his office, he didn't think he should hand over a key. To have a key or not to have a key—that was the question to which the board was to arrive at by the end of the session.

City Commissioners to Be Diamond Stars?

City official circles were all agog today over a report that slipped into the newspaper via City Commissioner H. F. Bowman, Superintendent of his life safety, about that baseball game at Altoona Saturday. The cops of Harrisburg and Altoona are to play that game, and it is known. But up until Mr. Bowman slipped the tip to the newspaper reporters today these facts weren't known; viz., i. e., as it were: That Mayor Royal is going to play "first." That Commissioner Taylor is going to pitch. That Commissioner Lynch is going to play "short."

TOMBSTONE FALLS ON BOY.

While playing with other boys in the Mount Calvary Cemetery this morning Rudolph Weiss, aged 8 years, received an ugly gash on the right leg when, according to the story told at the Police Department, a tombstone toppled over on him. Young Weiss tried to bind up the wound, but became weak from the loss of blood, and he was sent to the Harrisburg Hospital in the ambulance. After the injury was dressed Weiss was sent to his home at 1725 Market street.

The holdups occurred at different times at Spring Creek Canyon, four miles from Old Faithful, a geyser, and fifty-four miles from Gardiner.

REFLECTS IN COFFEE MARKET.

LADIES' HAIRDRESSING IN LONDON AND PARIS.

Both cities are positively dotted with hairdressing parlors and hair goods establishments. One wonders if the women of these two huge places have time for anything but care of their hair. There are hundreds of makers of switches and wigs and dozens of manufacturers of shampoos. There they use no makeshifts but prepare the scalp the way that assures hair beauty. Canthrox shampoos make the hair feel good and are very beneficial where hair is faded and brittle. Their use will greatly enrich the color of the hair and give it a beautiful gloss and softness.—Advertisement.
