Shipments of Steel to Be Minimized at Once

Pittsburgh, Aug. 3.-Steel men in this district are exhibiting grave con-cern of the future of the export steel cern of the future of the export steel trade. Leading officials of the largest steel companies here admit that the European war will kill the sale of steel in foreign countries. Many reasons are advanced for this assertion. One is that steel would very likely be considered contraband of war and would be unsafe to ship in any bottom with so many sea powers at log-gerheads.
