| \$29.50 Brass Beds <b>\$22.50</b> | D. P. & S., Third Floor, Three Elevators.  |  |

## ALL DEPARTMENTS DOING GOOD WORK

(Continued From First Page)

Harrisburg became a city governed by the commission plan much has been done, particularly in the departments of streets and public improvements, parks and public property and public safety. Still, there is much, much to be done.

In the department of finance and accounts little work of a very startling character could be done, but at that Commissioner W. H. Gorgas has worked out some fine improvements for the betterment of the office. The fact that the commissioner has to handle all the money, keep tabs on the treasury, act as a controller, and attend to the details involving the assessment and collection of taxes and the various mercantile licenses, makes his a regular job.

**Gorgas Makes Changes**

Commissioner Gorgas has brought about some important changes and improvements, among which is the plan which makes it imperative for the introduction of a resolution or ordinance to transfer any money from one fund to another. The license tax ordinance was introduced by request and while this partially solves the problem there will be some changes necessary to whip it into shape for next year. This was expected, however, when the ordinance was passed. The city assessment has been started under Commissioner Gorgas.

In the department of public affairs, over which Mayor John K. Royal has jurisdiction, few radical changes were necessary, although innovations and improvements in the conduct of the police department were made.

Through the efforts of the Mayor some needed equipment was procured for different branches of his department; new motorcycles were obtained for cycle officers; a new system of

police and fire calls was installed, and a lot of important little improvements in the method of handling the police force were worked out. Mayor Royal also introduced an ordinance providing for the location of each street intersection by means of a proper sign.

So much for the departments in which few, if any, really radical departures from the usual programs could be brought about. Now for the three other departments which have the improvement of the city in hand.

**As to Streets, Parks, Safety**

During the last six months Harrisburg has continued to spend thousands of dollars in working out its improvement scheme and the various public works have gone steadily ahead toward completion. Before another year shall have rolled around Harrisburg's improvement program as mapped out by the people in voting for \$300,000 more for improvements in 1913 will be pretty well finished. And the completion of this work naturally must be divided into three departments—streets and public improvements, parks and public property and public safety.

Now for a brief resume of the work of each:

**Department of Streets and Public Improvements, W. H. Lynch, Commissioner**

Completion of Spring creek 36-inch concrete sewer; Dock street bridge; continuation of work on the river dam to within a few hundred feet of completion; completion of river wall to Market street with probabilities for entire finish of work to Macley street this year; Paxton creek improvement half finished; paving of Derry street and two blocks yet to be finished; paving several small alleys and streets and plans worked out for paving intersections of several more; more than a hundred streets and alleys renamed; grading of Wisconsin, Nineteenth and Hildrup streets started; money voted for paving intersections of Market and Prospect streets and the new entrances to Reservoir Park; money for new asphalt repair plant sewers provided for Thirtieth ward; sewers provided for Pros-

pect, Whitehall, Front, Emerald and Woodlawn and tennis club house; bids for hauling 20,000 yards of earth to river front for "fill" opened twice; plans for new concrete bridge over Spring creek in Cameron parkway under way; plans for treatment of river front completed and sent to State Water Supply Commission for approval; repairing of two tennis courts at Reservoir, opening two more at both Twelfth street and the Island; dumping of 4,000 loads of earth on river front below Paxton street; removal of old mill at almshouse road intersection with Cameron parkway; planting of shrubbery and small trees in parkway; purchase of city's first two pieces of modern motor fire apparatus; 3,000 feet of hose; repaired and repainted apparatus of Susquehanna, Paxton Realty, Mount Pleasant and Good Will companies.

**\$5 A MONTH BUYS A VICTROLA**

Style X, \$75, full cabinet size. No interest. No extras. Be quick. J. H. Troup Music House, 15 South Market Square.—Advertisement.

**Lipton Will Probably Withdraw Challenge**

Newport, R. I., Aug. 5.—Racing by the intended cup defenders Resolute and Vanitie has practically ended for the season, although the New York Yacht Club had not to-day heard officially from Sir Thomas Lipton regarding his withdrawal from the races because of the war. The two yachts probably will go out of commission by Saturday and will be hauled out at City Island along side the Defiance already withdrawn from the candidates' competition.

**CONCERT AT FESTIVAL**

The Sacred Heart Church, in South Cameron street, will hold an ice cream festival on the church lawn to-morrow evening, the proceeds of which will be given to the church fund. The Italian band will give a concert at the same time.

of Cherry Hill, Reservoir Park, shelter pavilion and tennis club house; bids for hauling 20,000 yards of earth to river front for "fill" opened twice; plans for new concrete bridge over Spring creek in Cameron parkway under way; plans for treatment of river front completed and sent to State Water Supply Commission for approval; repairing of two tennis courts at Reservoir, opening two more at both Twelfth street and the Island; dumping of 4,000 loads of earth on river front below Paxton street; removal of old mill at almshouse road intersection with Cameron parkway; planting of shrubbery and small trees in parkway; purchase of city's first two pieces of modern motor fire apparatus; 3,000 feet of hose; repaired and repainted apparatus of Susquehanna, Paxton Realty, Mount Pleasant and Good Will companies.

## TENNESSEE TO SAIL TOMORROW WITH FUNDS FOR YANKEES

**In Wake of American Warship Will Sail Steamers to Bring Americans Home**

By Associated Press

Washington, Aug. 5.—Carrying millions in gold for the relief of Americans helplessly stranded by the upheaval in Europe, the armored cruiser Tennessee will start from New York across the Atlantic to-morrow. It will distribute its cargo at the principal ports in Europe for the use of banks and United States diplomatic agencies in replenishing the purses of Americans who suddenly have found their letters of credit useless or their funds exhausted.

In the wake of the Tennessee will sail a fleet of coastwise steamers and vessels of neutral nations as soon as they can be mobilized to bring the American tourists home. It was estimated to-day that there were at least 100,000 United States citizens abroad, one-fifth of whom urgently want to return. The others, it is believed, have sufficient means to stay in Europe until after the first emergency fleet can return across the Atlantic for them.

**Work on Transportation**

While the Tennessee is steaming across the Atlantic, government officials will bend their energies to solve the transportation problem. The first canvass showed there were six American liners, each with a passenger capacity of one thousand, and thirty transports and coastwise ships cap-

able of carrying about seven thousand persons. It has been suggested that if the stranded Americans who would be able to gain accommodations on the first or second cruises of these vessels made urgent representations for transportation home, then all available ships of neutral nations might have to be chartered.

As a preliminary relief measure, the State Department to-day was forwarding to its agents in Europe orders for "embassy checks" issued after the deposit of funds with the department by friends of Americans abroad. The orders generally will be accepted at hotels and by steamship agencies.

David Swanger, of Canal Dover, Ohio, chief engineer on the Tennessee, is well known in this city, having visited here on several occasions. He is a nephew of Mrs. Sybilla S. Meyer, 24 North Nineteenth street, and has been in the navy eight years.

**Important Statement Expected From Grey**

By Associated Press

London, Aug. 5.—The "Times" this morning says that the foreign Secretary, Sir Edward Grey, is expected to make in parliament to-day a statement ever more grave than that made yesterday. It adds that it is probable that diplomatic papers will throw an unexpected light on Germany's motives which, it is supposed, are aimed at acquiring French colonies and that as the price of British neutrality, Germany was prepared to give a guarantee that she would not annex any portion of France in the event of a French defeat.

**YOU CAN OWN A VICTROLA**

Style X, \$75, full cabinet size, by paying only \$5 cash and \$5 monthly. See them this week. J. H. Troup Music House, 15 South Market Square.—Advertisement.

## WATER PROBLEM MAY BE SOLVED IN COURT

**Judge McCarrell Hands Down Decree Directing Issue in Williams Valley Case**

In a brief order handed down today by Additional Law Judge McCarrell the framing of an issue between Harper T. Bressler, C. M. Stauffer and others against the Williams Valley Water Company to determine the value of certain streams in Williams township which have been taken over by the water company is permitted.

Some months ago the plaintiffs began an action against the water company, complaining that the concern had taken over certain waterways and that it had damaged others because of the deposits of sediment, etc., that flowed down stream. The court appointed viewers and it is upon their report that the court's decree was issued. The question now to be determined is the value of the streams that had been taken over or interfered with by the company.

**New Night Watchman**—Charles E. Jones, 432 Reily street, was appointed to-day by the Poor Directors as night watchman at the county almshouse, vice John Diehl, resigned.

**At the Register's Office**—The will of Amelia Keefe, Jackson township, was probated to-day and letters on the estate were granted to Charles S. and Landon N. Keefe.
