

MAP OF FOURTH BRIGADE CAMP MT. GRENA

GUARDSMEN MOVE TO GREYNA ENCAMPMENT TOMORROW AT 3 P. M.

Companies D and I Have Full Quotas of Men; Many Important Maneuvers

Miniature warfare, practice marches and skirmishes will be features of the Fourth Brigade encampment at Mt. Gretna, starting Saturday morning.

As in the past, the Eighth Regiment, Colonel Joseph B. Hutchison commanding, including Companies D and I, of Harrisburg, will again be prominent. This year Company I of

Harrisburg, Captain Frank E. Ziegler commanding, has a complete peace enlistment of seventy-one men.

It has been many years since a company of infantry from Harrisburg has had a full quota of enlisted men. Not only will Company I have all the men the law allows during times of peace, but there is enough applicants for enlistment to almost make up another company.

During the week Colonel Joseph B. Hutchison will present to the various companies of the Eighth Regiment the trophies won during the year at the various shoots.

Troops Move To-morrow Colonel Hutchison and his staff with the two local military companies will leave for Mt. Gretna to-morrow afternoon at 3 o'clock.

FIXTURES FOR HOME

The beauty of the home is greatly enhanced by beautiful electrical fixtures, lamps, chandeliers and portable lamps. The largest and most complete assortment in this section of the store may be seen at this store. Handsomely wrought and rich in the colorings of beautiful glassware, our variety is ample to please the most critical or comply with the simplest requirement. Dauphin Electrical Supplies Company, 434 Market street.

FEED YOUR HAIR

Modern dress among men with their tight hat bands has a tendency to cut off the natural circulation that keeps the scalp healthy. Nourishment of the hair is therefore necessary with scalp massage. Gross' Quinine Hair Tonic is the proper food for the hair follicles and removes the dandruff. At Gross' Drug Store, 119 Market street.

TO ALLOW MORE THAN \$2,600 IN ABATEMENT

New 60-Day Personal Property Payment Plan Will Mean Gain to Owner

More than \$2,600 will be allowed by Dauphin county in abatements for personal property taxes for 1914 as a result of the recent decision of the County Commissioners. For the first time the county this year will get the full benefit of the taxes collected for personal property—money at interest such as judgments, mortgages, etc. Heretofore the county got three-quarters of the sum, the remainder having been kept by the State. By a recent act, however, the State returns it all. This will total \$53,152.14.

At a recent session the commissioners decided to allow an abatement of 5 per cent. if the accounts were squared within sixty days after July 1, and the total sum is \$2,657.60. This will mean a net collection to the county of \$50,495.54.

Open bids for sewer and bridge. Bids for the construction of a new sewer in second, from Seneca to Emerald streets, and for the building of a concrete arch bridge over King, at Walnut street, will be opened at noon, Saturday, August 15, by commissioner W. H. Lynch, superintendent of streets and public improvements.

Hearing on pipe assessments. Owners of properties abutting on Curtin street, from Jefferson to Seventh, and in Fourth, between Seneca and Sixth streets, will be heard at 10 o'clock, August 17, on the question of assessments for laying water pipe in front of those properties. City Commissioner H. F. Bowman, superintendent of public safety, will hear the interested property owners.

Tax collectors. The first session of the city collectors of county taxes was held for 1914 in No. 1 courtroom. These meetings of the various collectors will be held every Thursday throughout this month in order to give the property owners a chance to call and square their tax accounts before September 1.

Expect to Kill Bugs by Electric Current

Electrical apparatus has been invented by M. Frigorio, province of Santa Fe, Argentina, for killing insects which are harmful to the growth of trees and grain. A metallic net supported on a two-wheeled vehicle is suspended over the ground where the insects are to be killed, and 6,000-volt energy is allowed to discharge from it to the ground. The net and the earth are energized from one terminal of a step-up transformer on the vehicle, the other terminal being grounded.—Electrical World.

A NOBLE AMBITION

Cholly—I am tired of letting your support me and I've made up my mind to become independent of him, don't you know, Mr. Bullitt?

Mr. Bullitt—I think that is a very noble ambition.

Cholly—Yaas, I've determined to settle down and marry some nice rich girl like you, don't you know.
