Red Blotchy Skin Easily Remedied

Your Blood with a Cooling,

When your blood is overheated the congestion or inflammation makes straight for the skin. Then is the time you need that famous blood purifier S. S. S. The skin is a modified form of mucous membrane and it is in these membranes that impurities in the blood are prepared for expulsion. S. S. S. has a most remarkable action in assisting the membranes to eliminate those secretions which are the result of inflammation whether they take the form of catarrh or red patches on the skin. Its cooling, purifying effect is almost immediate since in three minutes after entering the blood it traverses the entire circulation. It so acts upon the cellular tissues in the skin that each cell rejects any invading germ and selects only its own essential nutriment from the blood.

These facts are brought out in a strikingly illustrated book "What the Mirror Tells" which is mailed free by the Swift Specific Co., 108 Swift Building, Atlanta, Ga. Get a bottle of S. S. today of any druggist and thus insure pure blood and consequent health. Beware of imitations and disappointing substitutes.
