Hands Chapped and Cracked, Pained So Could Not Wash Them. Face Scaly and Disfigured. Cuticura Soap and Ointment Healed.

2320 South 3rd St., Philadelphia, Pa.— "I have been troubled very much in the winter with my hands and face. Lumps on my hands were chapped they would bleed so and pain that I would not know what to get to cure them. My hands and face were very rough, my hands the worst. My face was scaly and disfigured and I never could wash my hands they pained so. At night my hands and arms burned. "I have used glycerine and rose water, and they all were a failure. Then I saw an advertisement in the paper about Cuticura Soap and Ointment and finally I sent for a sample. I washed my face and hands before going to bed and in the morning with Cuticura Soap. On going to bed I put Cuticura Ointment on my face and hands. I had only been using it for a month and a half when I found relief and my face and arms were healed." (Signed) Miss Margaret E. Jennings, Feb. 6, 1914.

A final report is expected at the September meeting.

Human Side of Europe's "War Lord"

Despite the fierceness of the "War Lord," who is now trying to devastate Europe, he has a human side. He has many recreations besides making plans for war. This photograph shows him in one of these moments. A favorite pastime has been sailing about the Baltic and the North Sea in his magnificent steam yacht, the Hohenzollern. In fact, the Kaiser is an enthusiastic yachtsman. Several times it has been reported he might challenge for the America's cup, but he has been too busy for that. His yacht the Meteor has sailed against many smaller American and British yachts in the waters about Germany and Great Britain.

"Yellow Peril," Seen in Japan's Attitude

Special to The Telegraph Phila., Aug. 12.—Close observers of the international situation here see in the notice of Japan yesterday of her intention to declare war on Germany in 24 hours the future enunciation of the "Yellow Peril" on the west coast. It was asserted if this country failed to defend itself against a Japanese invasion, Japan throwing herself into the European conflict meant, it was declared, the immediate destruction of the commerce of the Pacific and Indian Oceans. And it was strongly intimated that Japan had her eye on the Dutch possessions in the Indian ocean. When Dr. C. J. Hexamer, president of the National German-American Alliance, heard the report yesterday that Japan had given notice to declare war on Germany in 24 hours, he replied: "Will the United States allow it?" It makes me shudder to contemplate the result of Japanese supremacy. It will change the Pacific Ocean into the Yellow Sea. And the United States eventually will be forced to defend the Pacific coast against Japanese encroachment. Dr. Albert Mudra, the German consul here, who has spent ten years in Japan and China in the consular service of his country, in commenting on the same report, said: "If Japan intends to make war on Germany then England, by helping Japan, stands to disturb the trade of the world and also to destroy the commerce of the Pacific and Indian Oceans. The next question in order is: Will the United States allow it?"

real workings of his latest thriller he refuses to divulge to anyone. A great many people are taking this opportunity of visiting the aeronaut in his workshop under the park theater to see just how a balloon is made. These visitors keep Kelly busy answering questions of all sorts. One chap asked the air king what he would do if the parachute failed to open for him when he was making a drop and Kelly replied that he would come right down and get another one.—Advertisement.

It is Just Natural To Admire Babies

Our altruistic nature impels love for the cooling infant. And at the same time the subject of motherhood is ever before us. To know what to do that will add to the physical comfort of expectant motherhood is a subject that has interested most women of all times. One of the real helpful things is an external abdominal application sold in most drug stores under the name of "Mother's Friend." We have known so many grandmothers, who in their younger days relied upon this remedy, and who recommend it to their own daughters that it certainly must be what its name indicates. They have used it for its direct influence upon the muscles, cords, ligaments and tendons as it aims to afford relief from the strain and pain so often unnecessarily severe during the period of expectancy. Every woman should mention "Mother's Friend" when the stork is the subject of conversation. An interesting little book is mailed free upon application to Bradford Regulator Co., 405 Lamar Bldg., Atlanta, Ga. It refers to many things that women like to read about. Get or recommend a bottle of "Mother's Friend" to-day and write for the book.

FACTS FOR SKEPTICS TO DIGEST

How often the question has been asked, "Is Sousa himself really going to be here when Sousa's Band comes?" Or some will wonder if the entire Sousa Band will appear and not a part of it. As a matter of fact, when Sousa and his band are announced as coming to town, it means that the only Sousa Band in existence will appear, and it will be conducted by John Philip Sousa, giving the same standard performances in large cities and smaller places alike. For there is but one Sousa's Band, and John Philip Sousa is its only conductor. When Sousa and his band are here on August 18 at Paxtang Park, accompanied by Miss Grace Hoffman, soprano, Miss Susan Tompkins, violinist, and Herbert L. Clarke, cornetist, it will be the same as is heard in New York, London or Paris.—Advertisement.
