WHAT NEURASTHENIA IS

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases, like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.

TU-BO-LAX Cured me Corrects CONSTIPATION in 2 MINUTES

This is the story that women folks as well as men folks are telling each other. 'TU-BO-LAX' is especially beneficial and desirable for the gentler sex. Their delicate organism is such that cathartics and strong purgatives cause irritation, bearing down pains, and general debility. TU-BO-LAX seems to invigorate all the vital organs. It cleanses the lower bowel thoroughly and pleasantly. It seems to invite all the undigested food in the stomach down through the intestines without any discomfort. By its beneficial effect—the lazy liver is awakened to new activity, so that biliousness, jaundices and sallow complexions are no longer a terror to women who use TU-BO-LAX.

Probably more than 1,000 homes in Philadelphia to-day have discarded purgatives of all sorts and depend upon TU-BO-LAX. They have discovered that taking medicine in the mouth to pass through the stomach and intestines to remove a little obstruction in the lower bowel is as antiquated as the 'Tallow Dip.'

TU-BO-LAX is a laxative ointment that immediately dissolves the hardened substances in 2 MINUTES and gives a thorough evacuation of the lower bowel by removing the refuse and poison from the system, the blood becomes enriched—digestion is stimulated, the liver is made active—and the whole body becomes stronger.

Remember you can carry TU-BO-LAX around in your pocket, and can get the relief desired at any time.

Your druggist can furnish you the TU-BO-LAX, or we will send you upon receipt of 25 cents—a package by mail.
