MONDAY EVENING, AUG. 31 BRUMBAUGH AND ROADS

PERHAPS no feature of Dr. Martin G. Brumbaugh's opening speech in what promises to be the most popular campaign any candidate for Governor in this State where in the country has there been so much attention given to the improvement of our agricultural resources. Yet we are constantly told by these little men for their own definite notions as a man familiar with the needs of the country districts concerning the character of roads. Pennsylvania must have. In his judgment it is out of the question for the people to wait a generation for the people to wait a generation for the building of the prevent with two or three main trunk lines and devote ourselves to the making of fine dirt roads which will touch the farming communities everywhere for at least nine months of the year.

The other candidates on the State ticket are all trained orators and each is making an excellent impression. POLITICAL SIDELIGHTS

-It's about time for Wilson Bailey he "fiscal agent" of the Democratic State machine, to begin his rounds.

—Those held-up Democratic post-masters will probably be ready to give, give, cheerfully give, for the machine. —The Pa-Mc League of Dauphin must have been off its job Saturday. Reports from Halifax do not mention any field maneuvers by the Pa-Mc League recently organized at

that place. —Candidate Rupley forgot to show up at Southampton Saturday. —Republican legislative candidates in Lebanon say it's a cinch.

The sane and reasonable faith of the Progressive voter is well expressed in the public statement of one of the original members of that party in Massachusetts, and its candidate for member of the State Senate only last Fall. He has just issued a letter to his fellow-Progressives, calling upon them to support the Republican ticket at the coming election.

"I am no longer willing," he says in this appeal, "to be a party to aid Democratic success. The present hour calls for choice direct between the Republican and Democratic parties. I have therefore decided to support every nominee of the Republican party, and suggest to my friends that careful investigation and study will convince them that it is our wises."

A SCRAP OF PAPER

(Philadelphia Record) (Philadelphia Record)

"Just for a scrap of paper!" No
wonder the German Imperial Chancellor was "greatly excited," according to the report of his last visit to
him by Sir William Goschen, the British Ambassador to Berlin, just previous to the outbreak of war, "Just
for a word 'neutrality'—a word, which
in war time had been so often disregarded; just for a scrap of paper,
Great Britain was going to make war
on a kindred nation who desired nothing better than to be friends with
her."

A scrap of paper! The Declaration

A scrap of paper! The Declaration A scrap of paper! The Declaration of Independence is nothing more than that, and the constitution of the United States, the Constitutions of the various States, and all the laws of all the nations in the world are nothing more. Wills are only scraps of paper. So, too, are contracts and pledges that bind men to definite performances. The New Testament and all the other religions of mankind are but bits of paper giving lasting form to certain beliefs. Outside of the battlefield a large part of the human race seems principally engaged in committing thoughts to scraps of paper.

Let us be thankful that there are still nations that recognize the blinding obligation of solemn promises placed on parchment. If the ideas of the German Chancellor prevailed civilization would speedily perish from the globe.
