ness of the Russian people, which un-doubtedly is deserved and augurs well for the future.

The wording of to-day's announce ment indicates that other Vistula fortresses besides Graudenz and Thorn have been sent reinforcements. The news arrived last night and the people of St. Petersburg received it with firmness.

frmness.

General Samsoniv, one of the Russian commanders killed, was considered one of Russia's most capable and brilliant generals. He greatly distinguished himself in the Russo-Japanese war, where he commanded a division of Siberian cossacks. He was very popular and his name was a household word among all classes of the population.

The other two lost commanders, the Times' correspondent goes on, were

out of England.

From the extent of the dispatch, however, the inference is clear that the general staff at St. Petersburg had announced a Russian disaster in Prussia, which consisted of serious defeat to two army corps, the sending of reinforcements, evidently German, to Graudenz and Thorn, and the death in battle of three Russian generals, Samsoniv, Martos and Pestitch.

To-morrow will be the first city registration day. You must register or you cannot vote in November.

Take plenty with you

You can buy Wilburbuds almost everywhere you go. But to avoid inconvenience it's a good idea to have a couple of extra packages with you.

They are always fresh and good. Each Wilburbud is wrapped by machine in foil. The Wilbur way of making them keeps them firm and appetizing in the hottest weather.

The buds are crudely imitated, but the Wilbur way cannot be duplicated. For convenience ask for "Wilburbuds"—the full name is "Wilbur's Chocolate Buds"-(trade mark registered U.S. Patent Office.)

Buy them at the nearest candy shop, drug, or department store. Ten cent and twenty-five cent pocket packages; forty and eighty cent fancy boxes. H. O. Wilbur & Sons, Inc., Philadelphia, Pa.
