

AVIATORS IN PISTOL DUEL BRINGING CLOUDS OF WAR

German Tells of Bravery and Daring of British After Scout-ing Trip

RUMANIA READY FOR WAR

Strong Sentiment in Favor of Rus-sia May Cause the Govern-ment to Act

By Associated Press Berlin, Sept. 8, via London, Sept. 9. A. M.—Sergeant Major Werner of the aviation corps returned to-day from the front after making repeated scouting flights over the French and British troops. Speaking of his experiences he took the opportunity to pay a tribute to the valor, bravery and daring of the British troops. He described as his most thrilling flight, one in which he battled with two acroplanes of the enemy, one a British bi-plane and the other a French mono-plane. Both were much faster than his machine which was old and battered.

My two enemies flew beside and about me for a long time," he said, "I expected momentarily that they would throw bombs but apparently they had none. Each of them fired revolvers repeatedly in my direction and I replied with my revolver, but none of the shots were effective. After an anxious quarter of an hour I drew them toward the western front, but the quiet is probably only a preliminary to events of great importance. All eyes here are turned eastward to the hard pressed Austrian army in Galicia where the importance of administering a check to the Russian invading army appears quite as great from a general point of view as the vigorous pursuit of the French campaign.

The Cologne Gazette correspondent reports from Montmedy in the French department of the Moselle that south of Sedan, that German trains are already running into France as far as that place. The German engineers are building a railway line around the city and French prisoners are being employed in clearing the railway tunnels. The death of two military aviators, Lieutenant Count Uexkull and volunteer Raymond Arthur Breton is announced. Dispatches to the Cologne Gazette from Bucharest report that there is a strong sentiment in favor of Russia throughout Rumania. The dispatches suggest that the popular sentiment is so strong that it is likely to force the government to act. Rumania has 290,000 troops ready for war.

3,000,000 Men Engaged in Death Struggle on French Soil Near Paris

London, Sept. 9, 10:06 A. M.—If inspiration means to the French soldiers what it did in the time of the First Napoleon, the situation to-day on the allies center, on the historic field of Châlons should afford compensation for a disheartening month of rear-guard actions. At any rate the allies, now superior or at least equal in numbers to the Germans, evidently have begun the offensive.

At least 3,000,000 men are engaged on both sides, and as the center of the allies lies on the plains of Chalons, true to many prophesies, the "mageddon" may take place where Attila surnamed the "scourge of God" defeated by the allied visigoths Romans in the bloodiest battle in the world's history.

Algerians, With Fixed Bayonets, Fearlessly Charge Through Fire

By Associated Press Paris, Sept. 9, 3:45 A. M.—A feature of Monday's action was another heroic charge by the Algerian riflemen. At a critical moment it became necessary to carry a certain position and after the artillery had prepared the way, 2,000 Algerians with fixed bayonets charged the artillery. The Germans without flinching under the storm of shot and shells. They never stopped until they reached the trenches where they wrought fearful carnage. Many pieces of artillery and machine guns were captured. After the Algerians came, the infantry and artillery and the wedge driven forward by the Germans to retreat. They were pursued by the same Algerians who inflicted the terrible losses.

Austrians Shot by Their Officers to Terrorize Others Into Obedience

By Associated Press London, Sept. 9, 4:42 A. M.—The correspondent of the Daily Mail in Milan, who has lately been in Vienna, shows a gloomy picture of that empire. He says: "Panic rules in Austria. The great, unwieldy and bankrupt empire, dragged reluctantly at the heels of Germany. In a state of desperate muddle and fear. Her armies, half-hearted at first and now openly mutinous, are beaten back at every point by the Russians. The policy of mixing in such company men of the different races which compose the empire has had the result that there is now no esprit de corps in the army. The men were driven into trains at the point of the bayonet and scores were shot by their officers to terrorize their fellows into obedience. While the Russian avalanche drives on, Bosnia is in open revolt and Trieste paralyzed by fear of an attack from sea. Austria is bankrupt, trade at a standstill, and hundreds of business men are ruined by a war which they hate. While the harvest remains ungathered Vienna is menaced by a famine and prices are steadily rising. In resentment the popular anger has turned against the foreigner and Serbs have been torn to pieces in the streets. The Russian newspaper correspondents, by the police and five foreign journalists are in prison."

SPOKANE'S \$2,250,000 HOTEL Entire Inland Empire Interested in Davenport's Opening Special to The Telegraph Spokane, Sept. 9.—An event of vital importance to the business interests of Spokane and the Inland Empire took place September 1, when the \$2,250,000 Davenport Hotel was thrown open to the public. Spokane bankers and leading business men are financially interested in the new hotel and all are taking the keenest interest in the success of this big enterprise. R. L. Rutter, vice-president and manager of the Spokane and Eastern Trust Company, said: "The erection here of a magnificent office on a scale worthy of New York and London will be noted all over the United States. The opening of such a hotel in a city of 125,000 inhabitants indicates to the country that the importance of Spokane is not to be inferred merely from its size. The Davenport implies that within and around Spokane exist great potentialities and resources that stand on the threshold of extensive development. This enterprise was initiated in prevision of the tides of travel to be turned this way through the Panama Canal, the stream of colonization and commerce, and especially the new flow of American tourists to the Pacific coast while disturbed conditions reign in Europe."

At several of his stops Colonel Roosevelt noticed that the majority of his audience as composed of French.
