Belgians Said to Have Cut Line of Communication of Kaiser's Army

By Associated Press

by General Joffre, commanderin-chief of the French forces, in describing the victory claimed by the allies along the western battle front. The latest official communication from Paris indicates that the advance is continuing all along the line with the allies' left wing now across the river Aisne.

But little news and that of the vaguest sort filters through from the Germans regarding the operations in the west though it is evident from the tone of Berlin official statements that the people are being warned not to be too optimistic as certain reverses may be expected. The latest actual battle news in Berlin describes a sortle from Paris on Sept 6th, which it is stated has been repulsed.

Despatches from many sources, including Vienna, indicate that the Austrian army in Galicia is in sore straights, but the story of its complete destruction is evidently exaggerated as the latest Russian reports indicate that General Ruszky's forces are still meeting with organized resistance. It is evident, however, from the disposition of the combatants that the Austrian center was crumpled up while the left wing was hurled back into the marshes of the river San. This left wing, composed of the flower of the Austrian troops, may be exught in a trap, making unconditional surrender the only alternative to destruction. The official statement given out in Petrograd says that General Rennenkampff, in East Prussia, is stubbornly retiring before a superior force rather than risk the turning of his left flank by the Germans. ore a superior force rather than risk he turning of his left flank by the

Returns to Antwerp

The Belgian mobile force has returned to its Antwerp base with the official explanation that it has served its purpose in preventing German reinforcements from joining the army in France. This force operated for four days in the Brussels-Louvain-Mailnes triangles forcing the German to abandon much of that portion of Belgium. In connection with this movement it is reported that the Belgians are cutting German communications. Other sources declare that the Belgians were compelled to return because the Germans were strongly reinforced from Liege. The retirement is said also to have been expedited by a treat to turn Brussels.

One of the most interesting rumors coming out of Belgium is a report in a Paris newspaper that the German governor of the occupied Belgian territory entered Antwerp under an agreement of safe conduct in a fruitless attempt to come to an agreement with the Belgian government.

Italy is still preserving neutrality but has joined the triple entente ambassadors in a protest against the revocation of the capitulatons by Turkey.

Austria evidently lears nostile action on the part of Italy according to newspaper reports from Rome, for feverish efforts are being made to fortify Triest against attack and the coast in that vicinity is being mined.
