Franklin County Grower Trying For Seedless Grape

Special to The Telegraph
Waynesboro, Pa., Sept. 14.—Captain George B. Snively, of the Burbank of Franklin county, has a tremendous yield of grapes to dispose of this year. They are the celebrated Snively's Late, the name given by President Roosevelt to whom a basket was sent by Captain Snively during his term as President.

Captain Snively is still at work trying to produce the seedless grapes. California at present monopolizes this luxury, due to rare soil and climatic conditions. But the captain thinks he can by and by work it out right here under less favorable conditions. He did succeed one year. He grafted his grapes, Snively's Late, on chicken grape vines, and the product the first year was a seedless grape, but next year the seeds returned. He is still working on the problem and getting nearer the solution all the while.

They secured a nail and spike and forced a hole through one and to their surprise clear, sparkling lager beer spirted out. ECONOMIC ASPECTS OF WAR

Business World's Resultant Situation as in Other Great Battles
Recent disturbances in various parts of the country show that, of the whole, business is on a solid foundation. Of course, most lines of trade were disturbed by the great war of European nations, but eventually they must all naturally adjust themselves to conditions, whatever they may be.

A century ago a great war was carried on between France and England, in which other countries were more or less involved. After it was over Europe was prostrated, but the neutral United States arose to supremacy in continental America, and eventually they won the world and gaining a sea trade which she held until engaging in a war of her own.

Trade conditions are working some quick changes, as is also the map of Europe. To keep in close touch with geographical changes one must get the Telegraph's official map of Europe. This is designed to show all the strategic points of the present conflict and it contains a wealth of interesting information not to be had from any other source in such a convenient form.

Lutheran Churches Hold Harvest Home Services

Special to The Telegraph
Mechanicsburg, Pa., Sept. 14.—Yesterday interesting harvest home services were held in the Trindle Spring Lutheran and St. Mark's Lutheran Churches. In the former a sermon appropriate to the occasion was delivered by the pastor, the Rev. S. S. Ganes, and special music was given by the choir. An abundance of the most perfect fruit decorated the chancel of the church. Among the fruits were corn in shock and ear; wheat and oats. Fruits were represented by apples, peaches, quinces, plums, pears and grapes. Of vegetables there were potatoes, cabbages, yams, peppers, tomatoes, beans, pumpkins, squashes, turnips, beets and eggplants. Goldenrod, china asters and roses were interspersed in the decorations, with a hop vine on which were thousands of hops. Also fifty jars of fruit, three dozen glasses of jelly and a ham. All of the above were presented to the minister, who has been recently wedded. The donation, it is stated, filled a large wagon.

In St. Mark's Church the decorations were of the same character, with great bunches of cosmos, scarlet sage and hydrangeas in the chancel. The canned fruit and jellies will be sent to the orphans' home. A special offering was lifted.

PAIN IN THE BACK

Do not worry about a pain in your back. The worry will do you more harm than the pain. The serious diseases of the kidneys seldom or never produce such pains, while the cause of most backache is muscular rheumatism, which is painful but never fatal. Lumbago is a form of muscular rheumatism, so is stiff neck.

Sufferers from any form of muscular rheumatism affecting the joints should keep the general health at the highest standard by the use of a non-alcoholic tonic like Dr. Williams' Pink Pills, and eat good, nourishing food without too much meat. Proper nutrition and good blood are the best means of fighting rheumatism. Medicines do not control the disease directly, but a well-nourished system will often throw it off. Rheumatism quickly thins the blood. Dr. Williams' Pink Pills act directly on the blood and as they build it up and strengthen the system there is an increased resistance to the rheumatic poisons. In this way many rheumatic sufferers have found complete recovery.

A book, "Building Up the Blood," which tells about the treatment of rheumatism, is free for the asking from the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.—Advertisement.

How She Acquired "Feminine Charm"

A nicely-dressed woman sat beside me in the train. Everyone stared at her. It was not her beauty of feature that held our eyes, nor her costume. But there was something about her face and expression—I risked it and asked: "Would you mind telling me how you keep your complexion so dazzling pure? Don't think me impertinent, but you seem over 30, yet haven't a line in your face, and your cheeks are quite peach-like. How do you do it?"
Laughing, she said: "That's easy; I remove my skin. Sounds shocking, doesn't it? But listen. Instead of cosmetics I use only pure meocozized wax, procurable at any druggist's. I apply this nightly, like cold cream, washing it off mornings. This gently absorbs the soiled, weatherbeaten film-skin, without pain or discomfort, thus revealing the fresh, clear under-skin. Every woman has a beautiful complexion underneath, you know. Then, to ward off wrinkles I use a face bath made by dissolving powdered saxolite (one ounce) in one-half pint witch hazel—a harmless astringent which 'tones' the skin wonderfully. Very simple, isn't it? I thought so. I'm now trying her plan and like it immensely.—Millicent Brown in The Story Teller."
