U. S. COMMISSIONER AT CARLISLE SCHOOL

Cato Sells, Head of Indian Affairs, Visits Institution to Investigate Conditions

Special to The Telegraph. Carlisle, Pa., Sept. 15.—Arriving here unexpectedly from Washington, Cato Sells, United States Commissioner of Indian Affairs, conducted an investigation of conditions at the Indian school to-day.

Since M. Friedman resigned as superintendent the facility has been almost entirely changed. Among other innovations the school term has been lengthened two months, commencing now coming in May at the end of the school year instead of in March, as heretofore.

Mr. Sells declined to make any statement relative to possible changes in the athletic department.

Glen S. Warner, physical director, and the man who is responsible for the success of the Indian teams, was a strong supporter of the old administration and it was thought that he might be removed. The commissioner gave no intimation to this, however.

REMARKABLE CASE of Mrs. HAM

Declares Lydia E. Pinkham's Vegetable Compound Saved Her Life and Sanity.

Shamrock, Mo.—"I feel it my duty to tell the public the condition of my health before using your medicine. I had falling inflammation, female weakness, pains in both sides, backaches and bearing down pains, was short of memory, nervous, impatient, passed sleepless nights, and had neither strength nor energy.

There was always a fear and dread in my mind, I had cold, nervous, weak spells, hot flashes over my body. I had a place in my right side that was so sore that I could hardly bear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again. I got Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I certainly would have been in grave or in an asylum if your medicines had not saved me.

But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells. All pains, aches, fears and dreads are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms I had before taking your remedies, and all in pleasure and happiness in my home."

Mrs. JOSIE HAM, R. F. D. 1, Box 22, Shamrock, Missouri.

Moses B. Hall, in Good Health, Nearing 100th Birthday

MOSES B. HALL AND GRAND-DAUGHTER

Special to The Telegraph. Marietta, Pa., Sept. 15.—Moses B. Hall is in his one hundredth year and enjoying the best of health. He was born in Franklin county, Vermont, in 1815, just five months after the battle of New Orleans. This aged man is well versed in the general affairs of the day. When he was ten days old, the battle of Waterloo was fought, and he was born during the second administration of James Madison. He has lived through the lives of all the Presidents of the United States, except the first three—Washington, John Adams and Thomas Jefferson. He was 29 years old when the first telegraphic message was sent from Baltimore to Washington, announcing the Democratic nomination of James K. Polk. He was thirteen years old when ground was broken by President John Quincy Adams for the first mile of railroad in the United States. He was 46 years old when the war of the Rebellion broke, and was too old to enlist, and has been sorry ever since, as he says he would certainly have liked to have gone to the front. The telegraph, the telephone, the trolley car, the use of electricity, airships, etc., have all developed in his lifetime. He has lived through four wars—war of 1812-15; Mexican war, 1846-48; Civil war, 1861-65, and Spanish-American war, 1898. He left his native State when young, and has since resided in New York, Ohio, Canada and to-day he lives in Pennsylvania. He is the father of ten children, nine of whom are living. The oldest is Henry Hall, a Civil War veteran of Leesville, Pa., 70 years old. Mr. Hall, the subject of this sketch, expects to see the century mark, and is enjoying the best of health. He is at present visiting his daughter, Mrs. C. C. Freeland.

To Put On Flesh And Increase Weight

A Physician's Advice. Most thin people eat from four to six pounds of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all a matter of what is in the nature of the individual. It isn't the quantity of food that counts, it's the quality. Thin folks stay thin because their powers of assimilation are defective. They absorb just enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A dozen meals a day won't make them gain a single "stay there" pound. All the fat-producing elements of their food just stay in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power. For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug, but is a scientific combination of six of the most effective and powerful health building elements known to chemistry. It is absolutely harmless, yet wonderfully effective and it has the effect of increasing the weight of a thin man or woman from three to five pounds a week. Sargol is sold by Geo. A. Gorgas and other good druggists everywhere on a positive guarantee of weight increase or money back.—Advertisement.

Property Owners Fighting Removal of Hitching Posts. Waynesboro, Pa., Sept. 15.—There has been some objection among property owners along Main street to having the hitching posts and rings removed from the curbing and sidewalks, and it is only through the intervention of one person who is defying them to remove the post in front of his property, Charles Davis, of West Main street, Mr. Davis recently removed the hitching ring in the statue of a colored pinnacled boy in front of his residence, and has placed a small United States flag where the ring was. He has not been ordered to remove the statue. It is believed by some that the town council has no right to remove the hitching posts from the pavements and a test case as to the legality of the ordinance will probably be brought in a few days.

UNSIGHTLY HAIR GROWTHS INSTANTLY REMOVED. Women with growths of hair or "fuzz" on chin, cheek, neck or arms often become so used to it that they imagine others are blind to it also. They become so indifferent to these unsightly growths that they forget how "grating" the sight is to their friends. While medical science knows of no chemical agent which will eradicate hair permanently without serious injury, it is an established scientific fact that El Radol will remove hair for a very long time, and in an absolutely safe, simple, and thorough manner. Forever after the hair can be kept from being noticeable. El Radol acts instantly. A few drops, a simple application, and no matter how coarse the hair is, it is dissolved and in a few moments is gone. Many physicians use the ingredients in El Radol for hair-removing, which shows how perfectly harmless it is. The skin is left smooth and velvet, even whiter than before. El Radol is becoming an indispensable toilet article as face cream. You need have no more hesitation in calling for it than in asking for and using a cold cream. Get a 30c or 60c size bottle today.
