# A DASH OF COLOR

According to psychology, the attention of the public is easily attracted by a dash of color.

According to the decree of fashion, it is the dash of color on the somber costume that attracts the attention of the women-buying public.

This dash of color is usually given by the girlle or sash which has become an indispensable part of the grown of to-day. They are even seen on some of the tailored suits.

Wide ribbon in attractive Roman stripes, vivid plaids and bright colors are worn, and bright colors are worn, and bright colors are since in the present day styles.
