As a rule this is true, but the readers of Josephus Nelson Larned's great History of the World will find it one of the few works of the kind that reads like a novel. This is due to the author's wonderful clarity of style, and his natural genius for narrative. He is one of the few great historians who seem to be born for that special vocation. He has told in his history the story of seven thou-sand years of the life of mankind, and told it well. It is safe to say that one who has read his Larned can go any-where and hold his own with people of learning and education. It is an invaluable work and should find its way into the library of every reader of this paper. Our coupon offer printed elsewhere in to-day's issue ex-plains how easy it is to get this won-derful work.
