Surprising Results From the Use of

NEWBRO'S HERPICIDE

For imparting health to the scalp and luxuriance to the hair nothing-excels Newbro's Herpicide. It is familiarly known to thousands of users throughout the World as the Original Remedy for destroying dandruff contagion and saving the hair and as a delightful hair-dressing. The letter from Mrs. C. K. Sharp, of Luverne, Ala., which comes voluntarily and unsolicited, is a glowing tribute to the wonderful power for good concealed in this wellknown scalp prophylactic.

READ MRS. SHARP'S LETTER

I want to give my testimonial on the wonderful results of using Herpicide. December 14th, 1911, we adopted a little girl from the Orphanage. Her head was almost entirely covered with what we term "scaled head," one side being entirely bald. I used every remedy I ever read or heard of including physician's prescriptions but they availed nothing. At last in desperation and as an experiment, because it isn't advertised for that, I began on Herpicide. The first few applications stopped the itching, After using two and a half bottles she was entirely cured. I wish you could see her hair. If I had used any more Herpicide I don't know what we would have

done with it as she already has hair enough for two. The bald places are well covered and it is peculiar that all the new hair is curly while the old hair is straight. The child, whose name is Elcurtis is now eight years old and calls herself the "Herpicide Girl." MRS. C. K. SHARP

Each day reveals almost marvelous and frequently astonishing results achieved by the use f NEWBRO'S HERPICIDE. There are surprises in every bottle which may be expected by the one who uses HERPICIDE carefully and intelligently. While the results are not always of uch an astonishing nature as those experienced by Mrs. Sharp they are invariably satisfying.

HERPICIDE eradicates the contagion that causes dandruff and thus checks itching of the calp and falling hair. The life, luster and luxuriance of the hair, so intensely admired by everyone, has come to be naturally associated with NEWBRO'S HERPICIDE, the exquisite and delightful hair-dressing.

MANY LOCOMOTIVES TO GO ON SCRAP PILE

Inter-state Commissioners Fix Life of a Railroad Engine at Seven Years

With the arrival of new locomo With the arrival of new locomotives, thousands of old engines throughout the country will go to the scrap heap. Stringent interstate laws fix the life of a locomotive at seven years. This means that at least 300 engines in service on the main line of the Pennsylvania Railroad will soon be turned into scrap, or undergo many improvements.

Improvements.

Standards for staybolt construction and steam pressure are also fixed by the Interstate Commerce Commission. The rules practically prohibit nearly all of the locomotives now in service from being used after January 1, 1915. Subsequently it was announced that the first series of locomotives built within the last three years can remain in service until January 1, 1920, providing certain improvements are made. L. Calder Clemson, road foreman of engines of the Middle division, whose home is in Harrisburg, said:

'I have received orders through the proper channels, but I haven't even given them any thought. If I retain my health, I'll be retired about two years before the orders go into effect, so that my successor will have to take up the matter. I'm not going to lose any, sleep over the affair, for certainly I'll have no hand in it. However, a solution will be worked out and it is possible that the 200 locomotives in question will be rebuilt in a way to comply with the demands of the commission."

comply with the demands of the commission."

Man Killed.—While the work train 8 on the Williamsport and North Branch Railroad was going from Picture Rocks to Hughesville shortly after 6 o'clock last evening, an unidentified man threw himself in front of the engine and was instantly killed.

Supervisors Congratulated.—William T. Hanly, supervisor, and Joseph B. Baker, assistant supervisor, of the Pennsylvania Railroad Company, are receiving the congratulation of many friends at their home town. Newport. They were awarded the general manager's prize of \$800 s for the best supervisor's division on the Middle division.

e general manager of the best supervisor's division on the Middle division. In addition to being good and efficient railroadmen, both Mr. Hanly and Ir. Baker take great interest in the unicipal affairs, the former being ne of the directors of the Men's Asociation of Newport, and the latter

sociation of Newport, and the latter its president.
Eulogize Dead Engineer. — Two thousand persons attended the funeral at Pottsville of James Harley, the ill-fated engineer of the Pottsville Express, which figured in a tragedy at the mouth of the Reading Railway funnel at Phoenixville. St. Patrick's Catholic Church, where solemn high mass was celebrated, was crowded to the door. The sermon, which was delivered by Father Montague, was hased on "Charity and Self-Sacrifice," very appropriate to the manner in which Engineer Harley died—at his lost. Large delegations from the Knights of Columbus and Brotherhood of Locomotive Engineers attended the last rites. A particular tribute was paid the dead engineer by the presence of Philadelphia and Reading Railway officials, who arrived in Pottsville in a special train. Among the number were W. H. Keffer, general superintendent; L. K. Morris,

freight trainmaster; A. Seiders, ute foreman, and others.

Work on Timetables. — Officials of

he Reading will soon take up the onform with the Fall and winter ravel. It is usual that the new time-ables go into effect about November 0. Very few changes are contem-

ORAL HYGIENE

The human mouth is the most important organ of the body from the standpoint of prevention of disease, although through ignorance of this fact it is the most neglected. The mouth is a breeding place for harmful bacteria of many kinds. Statistics prove that over 90 per cent. of humanity have conditions obtaining in their mouths which are harmful and dangerous to the health of their internal organs.

Health organizations have spent millions to free food, water and air from bacteria which would produce disease within the bodies of the consumptions, while at the same time many of these same harmful bacteria into the health of their internal organs.

All babt the neglected mouths of such the health organizations have spent with the neglected mouths of such the health organizations. An Amicable Action.—An interest-time of the company of these same harmful bacteria into the health organization of the company of these same harmful bacteria into the health organization of the company of these same harmful bacteria into the health organization of the company of these same harmful bacteria into the health organization of the company of these same harmful bacteria into the health organization of the company of these same harmful bacteria into the health organization of the company of these same harmful bacteria into the health organization of the company of these same harmful bacteria into the health organization of the company of these same harmful bacteria into the health of their interest.

An Amicable Action.—An interest.

trenal organs.

Health organizations have spent millions to free food, water and air from bacteria which would produce disease within the bodies of the consumers, while at the same time many of these same harmful bacteria inhabit the neglected mouths of such a great proportion of the human race. If you are afflicted with any disease of the internal organs, first of all the food of the internal organs. It is of all the proportion of the mouth and teeth as a probable cause. Drugs taken into your stomach do not destroy the bacteria growing in and about your diseased teeth and gums.—Written by Dr. B. S. Behney, 202 Locust street.—Advertisement. pany, Milford, capital \$10,000, Walker R. Newton, Paterson, N. J.

An Amicable Action.—An interestesting question has been raised by an
action of mandamus instituted by the
Indiana State Normal school to compei the payment from the State appropriation of certain accounts incurred in the construction of buildings
prior to the adoption of the act of
1909 which provides that the Commonwealth shall be entitled to liens
for all moneys appropriated to private
institutions for buildings or permanent improvements. The claim is
made that the act applies only to
buildings erected and improvements
made after the approval of the act
and not to appropriations made subsequent to the date of approval of the
act for the cost of buildings previously
erected. The action is amicable and
the decision will affect other institutions.

HIGHSPIRE PERSONALS

to steel ton TO NOVEMBER 30 TO ACT ON KELKER Order to Be Issued Extending the PARK PLOT MOVEMENT

Municipal League Will Likely Start Something at Meeting PNEUMONIA IS MUCH BLAMED Monday

> Action on the movement to develop the Luther R. Kelker Park tract near Steelton will be taken up at a meet-ing of the Municipal League Monday evening, in Room 4 of the Steelton Light and Power Company Building,

An nouncement was made to-day by Adjutant General Thomas J. Stewart that the National Guard's rifle practice season had been extended from October 31 to November 30. General orders will be issued within a few days giving details of the extension.

General Stewart said that the reason for the extension was so that men could be qualified, there being a possibility that some company commanders had overlooked the requirement of the gallery practice test before commencing the outdoor practice.

Light and Power Company Building, North Front street.

At the last meeting of the league prior to the summer recess a committee, consisting of Charles S. Davis, Robert M. Rutherford and Dr. William Middleton, was appointed to confer with the borough council in an effort to have the borough engineers survey the tract and plot the lines for drive-ways and walks.

Mr. Manning has already drawn a plan does not conform with its plan does not conform with its plan does not conform with some of the present lines of the land available for park purposes and entails too great an expense. If this plan can be modified, however, so that there will be no expense necessitated by opening the driveways, it is likely that the Municipal League, Civic Club and other organizations will help bear the cost of planting trees.

SONG FESTIVAL AND DANCE

The rifle practice season has closed on October 31 for several years and there has been much activity reported from the ranges. Rifle practice is obligatory and this year the indoor work is added to the regular practice at ranges.

Shipping Trout.—Orders for the resumption of the distribution of trout from the State fish hatcheries were sumption of the distribution of trout from the State fish hatcheries were issued to-day by N. R. Buller, State commissioner of fisheries, following receipt of reports that conditions of streams were improving. Some days go it was found that some brooks and creeks for which trout had been saked were so shallow because of lack of rainfall that it was not advisable options and trout are being shipped at the rate of over 1,000 a day from Sellefonte and at the same from Jorry. All fish shipped are a year old, it is stated. Demands for trout, sunsh, perch, blue gills and bass this ear are greater than ever known and terrout requisitions will probably e greater than the capacity of the atcheries, although the year has been rey successful in propagation.

Lawyers Honored.—Deputy Attor-The rifle practice season has closed n October 31 for several years and

Names Presented.—The name of the Personal Liberty party has been tree-empted for Schuylkill county concressional district and of local option or the Seventh Luzerne district.

Preparing to Pay.—The State au.

Preparing to Pay.—The State au.

Preparing to Pay.—The State au.

Preparing to Pay.—The State au-horities are preparing to pay the pri-mary bill costs, but the checks will not be sent out until more money is n the State Treasury. School and alighway payments have the call now. Rally day will be observed in St. Mark's Lutheran Church to-morrow with special exercises. Members of the Sunday school of Trinity Lutheran Church, Harrisburg, will present a special program of vocal music, drills and orchestral selections. The Rev. R. L. Meisenhelder will deliver an address and Gwilyn Watkins will sing. The Steelton Glee Club will also have a part in the program. in the State Treasury. School and highway payments have the call now. Pneumonia to Blame.—Pneumonia is shown to have caused over 500 deaths, or almost two-thirds as many as tuberculosis, in Pennsylvania during the month of June, according to statements issued to-day at the State Treasury. At the same time Bright's disease and cancer are shown to have been responsible for many deaths. The death toll from pneumonia in the month of roses was 523, from tuberculosis of the lungs 663 and tuberculosis of other organs 145; Bright's disease, 632 and cancer 488. Five hundred and seventy-four children died in early infancy. The figures also show that the communicable diseases which were so much feared a few years ago are now being checked. Typhoid causes but 55 deaths, scarlet fever 85, diphtheria, 91, whooping cough 82, measles 52, smallpo5, 3, influenza 21 and malaria 5. There were 88 cases of suicide, 78 deaths from railway injuries and 92 killed in mines. Other forms of violence accounted for 517. In June there were 7,953 deaths and 18,119 births. State Charters.—State charters issued include: Beeford County Truis

IN MISS HOCKER'S HONOR

Chaperoned by Professor and Mrs. C. S. Davis, a party of students from the high school enjoyed a "hike" to the home of Mr. and Mrs. C. F. Rupp, Enhaut, last evening. A marshmallow toast was held on the big lawn in front of the Rupp home. The party was given in honor of Miss Francis Hocker.

Mrs. Samuel D. Keller, aged 77 years, a resident of this place for more than thirty-five years, died at her home, 19 South Second street, this morning of heart trouble. She is survived by her husband, two daughters, Jennie and Mrs. John Houck, of this place, and one son, Dr. William Keller, of Pittsburgh. Funeral services will be held Tuesday morning at 1 o'clock. Burlal will be made in the Middletown Cemetery. Mrs. Keller was a member of the First Methodist Episcopal Church for more than fifty years. She was born in Hummelstown.

FIRE GUTS HOTEL ROOM

Fire of unknown origin yesterday gutted one of the rooms in the third floor of the Oberlin Hotel. The Ober-lin chemical extinguished the blaze.

END FOR THIS FREE BOOK ON And Become a Perfect Man Rupture holding Lock it really is. If it does not prove all we claim after the required test, it will not cost you a cent. The Real Secret of Healing Rupture To successfully co-operate with Nature in the work of healing, the supporting device must be so constructed that the rupture retaining part overlaps and draws together the breached opening instead of pressing directly into it.

RUPTURE Is a handicap. If you don't realize it now you will sooner or gets worse from time to time. It will eventually unfit you for work and life's battles. It positively grows dangerous —think of the hundreds of people that yearly sacrifice their lives to strangulation.

tion. The past has proven that the old-ishloned antiquated truss and appli-nce won't help you—it can't; its con-truction is all wrong. A new star of ope has arisen for the ruptured—a na-iral outcome from the deficencies of ite past. There is hope, joy and com-put awaiting you.

"Schuiling Rupture Lock" s a wonderful invention for rupture—
the outcome of years of study, hard
work and diligent research. It is away
rom the old lines of truss construction, and holds the rupture exactly the
way Nature intends, so that she may
real the opening without interference.

Guaranteed to Hold

In wearing my Rupture Lock you have absolute protection at all times. You may do any kind off work and get in any position under any condition. We will prove this, by a 30 DAY TRIAL. That's the length of time you should have. A few days' trial can never bring out the merits of any article. Thirty days is the only fair way. That's why we insist, to give it the full, real tests so you may appreciate what a perfect

that the rupture retaining past diverinps and draws together the breached
opening instead of pressing directly
into it.

The trusses of to-day are sadly lacking in this quality. They nearly all
give that direct pressure into the
opening, which can not help but enlarge it, making it that much harder to
opening, which can not help but enlarge it, making it that much harder to
retain the bowel later on, resulting in
uncontrollable rupture with serious
complications.

The Schuilling Rupture Lock was invented to overcome just such faults.
It was and the control with Nature's
the safest and shortest possible in the
thousands who are now singing its
praises in every corner of our land.
That it succeeded is best told by the
thousands who are now singing its
praises in every corner of our land.
This is the Rupture Lock that you get
on a 30 Day Trial.
